NEW VILLAGE POOL MEMBERSHIP POLICY (CAPPING MEMBERSHIP)

In response to reaching the membership limit for the Shorewood Pool in the last two years, and in anticipation of continuing pressure on the capacity of pool programs, the Village Board has adopted a new policy on pool membership practices:

All returning memberships, regardless of residency, are welcomed back to the next season and all new memberships received by the April 21, 2014 deadline will be accepted.

All membership requests received after the April 21 renewal deadline will be accepted on a first-come-first-served basis until pool capacity is reached. Returning membership requests will be assessed a late fee after the April 21 deadline and new memberships requests will be assessed a late fee after June 15. Upon reaching pool capacity, all requests for pool membership, whether new

CALENDAR OF EVENTS

All events will be at the Village Hall unless otherwise noted***

MAY

12	Municipal Court (Traffic)	5:00 pm
12	Parks Committee	5:30 pm
12	Public Works Committee	7:00 pm
13	Plan Commission	7:00 pm
14	Finance Committee	5:30 pm
19	Open Book	5:00 pm to 7:00 pm
19	Board of Trustees	7:00 pm
26	Memorial Day Holiday (Village office closed)	

JUNE

9	Municipal Court (Traffic)	5:00 pm
9	Parks Committee	5:30 pm
9	Public Works Committee	7:00 pm
10	Board of Review	4:30 pm to 6:30 pm
10	Plan Commission	7:00 pm
11	Finance Committee	5:30 pm
16	Board of Trustees	7:00 pm

*** The calendar includes all meetings and dates submitted at the time of publication*

**** Meeting dates/times are subject to change. Check with the Village Hall or the committee chair.*

MAY - JUNE 2014

HIGHLIGHTS FROM THE APRIL 21, 2014 MEETING OF THE BOARD OF TRUSTEES*Complete detailed minutes will be available on our website or at the Village Hall)*

Attendance – Mr. Ridders was excused.

Oath of Office – Mr. Simdqjost administered the oath of office for the newly elected trustees.

Consent Agenda – In an effort to expedite meetings, items on the consent agenda are considered as a group and are adopted with one motion. Any Board member may unilaterally remove an item from the consent agenda if he or she believes the item needs discussion. Consent agenda items included the minutes for the [March 17](#) and [April 3](#) meetings; a temporary Class B wine and beer license for the Unitarian Meeting House; and a street use permit for Madison Police Department Dog Jog on September 14.

Elect President Pro Tem – Trustee Benforado was elected President pro tem which authorizes him to perform the duties of Village president in Mr. Sundquist's absence.

Resolution R-2014-5 – The board unanimously approved [resolution R-2014-5](#) recognizing and thanking Trustee Barbara Center, whose term ended April 14, for her service to the Village.

Consider bid award for Dartmouth/Wellesley street reconstruction project – Two residents asked the Board to reconsider the installation of the sidewalk on the south end of Dartmouth before approving the project. After a lengthy discussion the Board considered the matter. Village Engineer Brian Berquist explained the Village could approve the bid and eliminate the sidewalk portion of the project at a later date, if it chose to do so. The Board voted unanimously to award the base bid, alternative 2, alternative 3 and the supplemental bids. The Board will generally discuss sidewalks at its May meeting and the specific issue of the sidewalk on Dartmouth Road at its June meeting.

Consider proposal for resurfacing tennis courts and loan to tennis program – The Board approved the quote from Midwest Sealcoat to resurface, seal and reline the tennis courts by the pool. Tennis program revenues will repay the Village's general fund the cost of the approximate \$13,000 project over the term of four to five years beginning in 2016. At that time two loans to the tennis program for other capital improvements will be paid off, resulting in anticipated surpluses of \$2,000-\$3,000 per year. The tennis program will pay \$3,000 of the cost upfront.

Consider acceptance of proposal for telemetry system upgrades – Mr. Berquist reviewed the quote from L.W. Allen for the telemetry system upgrades and proposed some adjustments. The Board unanimously approved the proposal and the cost reduction adjustments.

Consider seasonal hires for pool, recreation programs and forestry – The Board approved the hires as recommended by the Personnel Committee.

Consider policy to allow accrual of vacation and sick leave while on workers compensation – This matter was deferred to the next meeting.

Consider amendment to Village financial policies and procedures manual adopting a policy concerning credit risk – This matter was deferred to the next meeting.

Consider replacement of HVAC units at Old Village Hall and Community Center – The Board discussed the replacement of this equipment, most of which is twenty years old. Some of the units have failed or are close to failure and in need of significant repair. Three quotes were received. The low quote from H&H was approved by the Board in the amount of \$67,571.00. This includes six roof top air handling /air conditioning/heating units as well as crane rental and electrical work.

Review and recommendations regarding University Bay Drive fields Master Plan – According to UW Madison there is no new information on the University Bay Drive fields project. They stated the project is included as a future project in the Recreation Sports Master Plan and there is not any additional detail beyond what has been seen to date. They continue to work toward hiring a consultant to develop an Environmental Impact Assessment (EIA) for all of the outdoor fields (including the University Bay Drive fields) but that has yet to occur. Once that consultant is hired, they stated they will be having a public scoping meeting and a public information meeting on the draft EIA when it is available.

Consider per inspection fee increase of \$1.75 for building, electrical, plumbing, HVAC inspectors – The

continued from page 2

Board deferred this matter to the next meeting.

Review and consider changes to recreation fee reimbursement – The Board deferred this matter to the next meeting.

Oak Park Place Project – Hal Karas representing developer Scott Frank reviewed the proposal to build a continuum of care facility at the Pyare Square Property. The project is estimated to cost \$49M and provide an assessed value to the property of \$30M to be guaranteed by the owner. Any shortfall of the expected \$30M assessed value would be paid to the Village by the developer. The developer is requesting \$3.9M in TIF assistance. If needed, they would draw up to \$1.45M for demolition and initial construction costs. Half of the total TIF payment would be made when the occupancy certificate was obtained. The remaining half of the \$3.9M would be a developer financed TIF. Whatever amount is taken upfront by the developer will be subject to a letter of credit. The project is expected to take 12-18 months. They would like the Board to consider the Developer's Agreement at its May meeting and expect to start construction in June. Village financial analyses indicated that the project should result in 35% of the tax increment generated being surplus.

Closed Session – The Board went into closed session to discuss the Oak Park Place tax increment request and Blackhawk Lease Negotiations.

After reconvening to open session the Board announced that it had approved a tentative agreement to provide the Oak Park Place development up to \$3.9M in tax increment financing along the same terms as requested and that was proposed as a counter offer by the Board previously. The TIF financing is subject to agreements to be drafted by the Village Attorney and brought back to the Board for final consideration.

Adjourn – The meeting adjourned at about 11:00 pm.

Next Bulletin Deadline: Monday, May 19, 2014

PROPERTY ASSESSMENT CHANGES / OPEN BOOK

If you took out a building permit or purchased property in Shorewood Hills last year, you may expect to receive a notice from the Village's assessment service, Accurate Appraisal. The letter will include information about the change in the assessed value of your property. Please contact Accurate Appraisal (800-770-3927) if you have any questions about the assessment. If you do not receive a letter from Accurate Appraisal, your property assessment for 2014 will be the same as it was in 2013.

You will have an opportunity to examine other Village property assessments for 2014 or speak directly to the assessor at Open Book which will be held on **Monday, May 19, 2014** from 5:00 pm to 7:00 pm at the Village Hall. To make an appointment, please log on to www.accurateassessor.com, click on the 'Appointment Schedule' link and select 'Shorewood Hills Village of.' You will be prompted for a password: the password for Village property owners is SH10. Alternately, you could call Accurate Appraisal directly to schedule an appointment (800-770-3927).

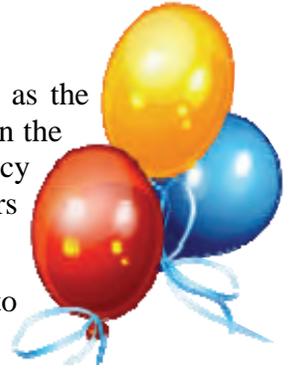

BOARD OF REVIEW

If after you visit with the Assessor at Open Book, you feel your property's assessment is in error, you may appeal the proposed assessment at the Village's Board of Review (BOR). The BOR, which consists of residents appointed by the Village Board, is charged with determining if a contested assessment is accurate. The Board will hold hearings on **Tuesday, June 10, 2014** from 4:30 pm to 6:30 pm at the Village Hall.

The Board will consider your request to revise your assessment. **Appointments are required.** Contact the Village Hall by Friday, June 6 to make an appointment.

FOURTH OF JULY VOLUNTEER HELP IS NEEDED

The Fourth of July celebration in Shorewood Hills has been a tradition almost as old as the Village itself. The work of planning and carrying out the day's activities has largely been the responsibility of the members of the Shorewood Hills Fire Department and Emergency Medical Service. The decommissioning of those groups last October means that others must step forward to help or some activities will no longer be manageable.

Listed below are areas where help will be needed this year, if these activities are to continue:

- **Kids' Games** (for kids 1st grade and below). It would be nice to generate some new ideas for these games and get some volunteers to run the games for about an hour after the parade.
- **Art Fair** – Bill Muehl has organized this event for many years and would like someone or a small group of people to take over this task.
- **Dance Set-up** – Personnel needed to help move tables and chairs from the Community Center to the Fire Station. It usually takes about an hour during the afternoon on the day of the dance.
- **Bartenders** – Needed for both the dance and during the day on the Fourth of July. You don't have to be licensed but that could help immensely.
- **Balloon Inflating** – Usually about 10:30 am for an hour on the Fourth of July.
- **Fireworks Crowd Control** – Patrolling the fireworks display perimeter on golf carts before and during fireworks.
- **Fireworks Cleanup** – Volunteers are needed at Blackhawk Country Club at 6:00 am for two hours to help pick up debris.

Many members of the former Fire Department and Emergency Medical Service have decided to remain active with the Fourth of July activities and other Village projects and have joined together to form the Shorewood Hills EMS & Fire Association. Plans are to meet at least every other month to conduct business, plan activities, and socialize. Other meetings or work sessions will be scheduled as needed. **Membership in the Association is open to anyone who wishes to participate.**

We hope we can continue with the full slate of activities this Fourth of July, but it will require some help. Please consider volunteering your time or even becoming a member of the Association. Contact David Sykes at the Village Hall (dsykes@shorewood-hills.org or 267-2680) if you would like to help.

COMMUNITY SERVICE PROJECTS

The newly reorganized Shorewood Hills EMS & Fire Association would like to continue to provide service to the community in addition to helping with the Village's Fourth of July celebration.

Do you have a community project that could use some extra personnel? Would you like to join this community organization? Membership is open to interested individuals that would like to become involved in July 4th and other community projects. Contact David Sykes at 267-2680 or dsykes@shorewood-hills.org for more information.

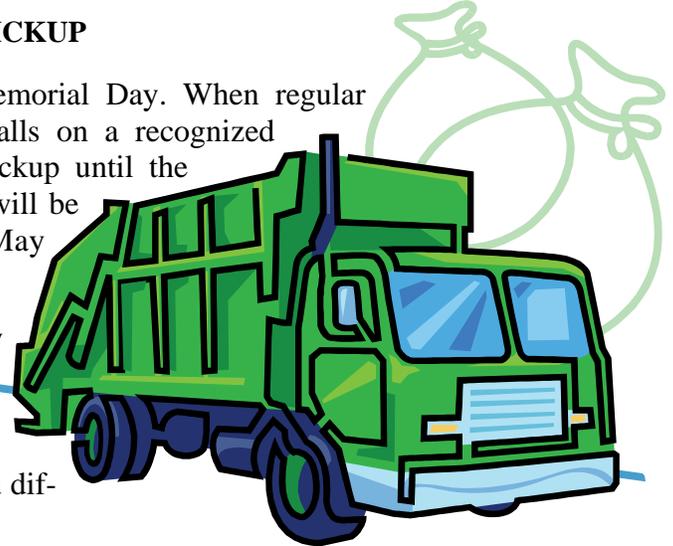

MEMORIAL DAY TRASH PICKUP

Monday, May 26, 2014 is Memorial Day. When regular trash (and recycling) pickup falls on a recognized holiday, Pellitteri postpones pickup until the next day. Trash and recycling will be picked up on Tuesday, May 27, 2014.

Please have your carts out by 7:00 am. As they double up service on that day, different drivers may be in the Village

taking different routes. They may arrive on your street at a different time than during regular weeks.

continued from page 1

or renewal, resident or non-resident, will be denied.

The Pool membership limit achieves maximum capacity for several important pool programs, such as:

- The physical space of the pool is completely in use for lessons, leaving no additional space for the addition of more lesson classes. Lessons are included and expected with all memberships.
- The swim team is at maximum capacity with regard to pool space. Additional swimmers cannot be accommodated beyond numbers of the past two years. All memberships are eligible to join the swim team.
- Diving lessons and the dive team are at capacity.
- Master's Swim classes are full, and we cannot accommodate additional swimmers.
- Popular noon-time lap swim is often at a maximum capacity and creating stress with competition for space for lessons, divers, and water aerobics.
- Also, on "nice" days, the pool is filled to capacity. Deck-side chairs are all filled. Concession seating is full. And enjoyment of the pool is limited by the sheer number of swimmers in the pool. Stretching capacity threatens the ability to maintain the enjoyment and safety of patrons.
- The Shorewood Hills Pool enjoys a wonderful relationship with the neighborhood but is conscious of the limitations of parking and the stresses of traffic. Parking is stressed on most days and traffic is always a concern in the heavily residential area of the pool.

To continue to reach out to new members of our community and to further recognize the investment of the Village in the Shorewood Hill Pool, the Village discounts membership to Village residents and in addition adopts the following new policies:

- August memberships will not be closed to Village residents.
- Increase Village residents' ability to purchase daily passes from 5/person to 10/person (If a Village resident seeks membership after the pool reaches capacity, they will have the ability to use the pool 10 times before August, and may then join for August as well. This accommodation is an important gesture in welcoming new residents to the Village and our pool community).
- When/if the pool membership reaches capacity, additional membership requests will be placed on a waitlist in the order that they are received. Within a given year, however, resident requests will be placed ahead of non-resident requests providing residents preference for the following pool season.

The Village also reaffirms its commitment to non-resident members who comprise 70% of our membership and nearly 80% of pool membership revenue. Those members are critical to maintaining a pool that thrives without tax subsidy.

HARDEN YOUR HOME & VEHICLE FROM BURGLARY

This seems to be the winter that never ends, but some warm spring days have speckled the recent forecasts. The warmer weather also brings a rise in the burglary rate each year. As a resident, you can help assist with prevention and reduction of these crimes.

The two most important things you can do to secure your property are lock it up and make sure nothing is in plain sight. In your car, that includes change in your center console, GPS units, packages, etc. As for your home, bikes, toys, or yard equipment should be locked up or secured when not in use. Burglars see these items as invitations to take them. If they are hidden, there will be nothing to take. Be mindful of the garage door being left open for extended periods with no one in sight, it is an invitation to the opportunistic thief.

The next thing you can do to aid in preventing theft of your property is install deadbolts on all of your doors. Deadbolts are thick locks and make it much harder to break into homes. Also think about installing motion-sensing lights. This type of light tends to stop criminals from approaching a home and will alert you to any strange movement at night. The final security feature to consider is window vent locks. These allow a window to be opened for ventilation, but not opened far enough for an intruder to crawl through.

Properly securing and taking care of your property will help in the effort to reduce break-ins and burglaries in the coming months and throughout the year. With your assistance and the efforts of the police, we can help prevent these crimes together as a community. Additional tips include:

- Secure all entry doors, sliding glass doors and window in your home at night and when away.
- Do not leave valuables or keys in your vehicle(s).
- Contact the U.S. Postal Service, newspaper delivery, and the Police Department when going out of town. A vacation check form can be found on the Village's website or at the Village Hall.
- Inform your neighbors when you will be away and have them check on your home.
- Leave lights on or buy light timers so others think you are home. Lighting is the most cost effective security you have.
- Remove or trim trees/shrubs that may hide windows to your home and provide screening from view for a potential burglar.
- Take pictures of valuables and serial numbers if the items have them.
- Contact the Police if you notice something out of place.

Thank you for helping us keep the Village a safe place to live.

- Shorewood Hills Police Department

2014 PARKING PERMITS

Avoid a ticket. Get a parking permit. Every street in the Village is in a one- or two-hour restricted parking district (Monday-Friday, 8-5). The Police Department has recently been issuing more tickets than usual for resident vehicles parked on the street without a current permit (please note that at the at the Board meeting on March 17 the Trustees increased the parking ticket fine to \$40).

Parking permits allow residents to park on residential streets within 100 yards of their home for periods exceeding the posted restrictions. Parking permits expire on December 31 each year. Please stop by the Police Dept at the Village Hall to obtain 2014 Shorewood Hills Parking Permit sticker(s). There is no charge for the first sticker per household. Additional stickers are \$5.00 each.

The Police Department has temporary parking permits available if you have guests or contract workers who will be parking on the residential street in front of your house for more hours than the posted restrictions.

BICYCLE LICENSES

The Shorewood Hills Police Department also has licenses for bicycles. Village code requires all bikes to be licensed. If your bike is lost, stolen or the police department finds an abandoned bike, it is much easier to find the owner if the bike has been registered.

Licenses are \$5.00 each and are good for three year. The fee may be pro-rated to \$4.00 or \$3.00 if the printed expiration date on the license is less than three years.

BIKE SAFETY RODEO

Eagle Heights Community Center
611 Eagle Heights, Madison

May 3, 2014 from 9:00 am to 11:00 am

Kids who participate must bring a helmet.

Helmets will be given away,

but on a first come first serve basis.

Sponsored by UWPD with the assistance of the
Shorewood Hills Police Department

**Computer & Electronics
Recycling Event . . .
Coming in June . . .
Details to follow . . .**

NOTICE OF PUBLIC HEARINGS

Please take notice that the Village's Plan Commission will hold Public Hearings at 7:00 pm on Tuesday, May 13, 2014 at the Village Hall to solicit public comment on the following:

- A conditional use permit application for construction of patios and a lake access stairwell for property located at 3414 Lake Mendota Drive.
- A conditional use permit application for a deck addition for property located at 3410 Lake Mendota Drive.
- A special exception permit application for a two foot roof height exception for property located at 3329 Tally Ho Lane.

Copies of the application are available for review at the Village Hall during regular business hours.

UW CREDIT UNION SHRED-IT EVENT

The UW Credit Union's Annual Shred-It event will be held in May at the Corporate Office parking lot, 3500 University Avenue on:

- Friday, May 16 from 3:00 pm to 6:00 pm; and,
- Saturday, May 17 from 9:00 am to 1:00 pm.

You may bring up to three boxes of your confidential paper documents to be shredded.

PELLITTERI SHRED EVENT

Shred Your Confidential Papers - Join Us! Did you know 1 in 4 Americans will be the victim of identity theft? Protect yourself; come shred your unwanted confidential files for FREE!

Bring up to 5 banker boxes worth of files to be destroyed. Staples and paperclips do not need to be removed. Binders, credit cards, DVD/CDs, and floppy discs are prohibited. We cannot dispose of empty boxes.

Receive documentation on site verifying your material has been destroyed in a confidential manner. Visit keepitconfidential.com or call Pellitteri at 257-4285 for more details.

See the list below for upcoming shred events:

Saturday, May 3rd
7:30 am to 10:30 am

Marketplace Dr. & Executive Drive, Fitchburg
(Behind Oak Bank)

Saturday, May 3rd
8:30 am to 11:00 am

SVA Certified Public Accountants & the BBB
1221 John Q. Hammons Drive, Madison

Saturday, September 6th
At the Dane County Credit Union
709 Struck Street, Madison
8:00 am to 10:00 am

*Dane County Credit Union will also be collecting food pantry donations

* Fun Fact: Every ton of paper recycled saves 17 trees

SPRING CLEANUP EVENT

The Village's spring cleanup event has been a great success over the past few years. On Friday, Saturday and Sunday, May 30, 31 and June 1 the Village will have two 30 yard dumpsters available outside the Public Works garage (north end of the Fire Station lot) from 8:00 am to 5:00 pm.

Bring items (not fit for donating or garage sales) that have been collecting over the winter or over the years and discard them once and for all. A Public Works truck will be available for recyclable metal items.

But we can't take everything. Certain materials are banned from landfills because of their toxicity. They require special disposal methods to prevent environmental damage. Some materials may not be toxic but are prohibited for other reasons, to encourage recycling for example. The Dane County Clean Sweep program (<http://www.danecountycleansweep.com/>) may take some prohibited materials or the Village's waste hauler would be happy to discuss alternate methods of disposal for any of the items listed below. Please call Pellitteri Waste Systems at 257-4285.

Prohibited Materials:

- Appliances
- Asphalt Shingles
- Batteries
- Brush / Grass / Leaves
- Office Paper
- Cardboard / Boxes
- Computes / Monitors
- 30 & 55 Gallon Barrels / Drums
- Fluorescent Bulbs
- Light Fixtures
- Hazardous / Infectious Materials
- Oil & Oil Filters
- Paint
- Recyclables
- Sharps / Needles
- Tires
- Dirt / Brick / Concrete
- Asbestos

SAVE THE LAKES – RETHINKING YARD CARE

Whether you live in the city or the country...whether your home is large or small...whether you have a lot of time and money to invest in your yard or just a little, there is something you can do to improve water quality. The following suggestions are ways that you can make a contribution to clean water and a healthy environment:

- Leave grass clippings on the lawn.
 - Keep fallen leaves out of the street or ditch, using them around the yard as practical. Properly place the remainder near the curb (not in the street) just before municipal collection.
 - Plant an extra tree for multiple environmental benefits, especially where it becomes part of a planting bed or "naturalized" landscape area that recycles leaves, twigs, and other yard "wastes."
 - Seed bare soil and cover it with a mulch as soon as possible to minimize erosion.
 - Direct roof downspouts away from foundations and driveways to planting beds and lawns where the water can safely soak into the ground. Use a rain barrel where practical.
- Use lawn and garden chemicals carefully and sparingly. Pesticides, including weed killers, should be considered a last resort—other controls come first.
 - Limit the use of toxic or hazardous products in general. Keep them away from storm sewers, lakes, and streams.
 - Wash cars on the lawn, where soapy water can't quickly run toward the nearest storm sewer, picking up other pollutants as it goes.
 - Keep cars tuned up and in good operating condition. Check for drips and repair leaks immediately to keep nuisance oils off pavement. Better yet, walk, bike or take the bus.
 - For waterfront property, grow a "buffer strip" of dense, natural vegetation along the water's edge to filter pollutants and stabilize the shoreline.
 - Clean up pet wastes, from which nutrients and bacteria could be washed toward lakes and streams.
 - Conservatively use salt in winter. Substitute sand or old-fashioned "chipping" when possible.

Excerpt from GWQ009 Rethinking Yard Care DNR WT-526-99 <http://clean-water.uwex.edu/pubs/pdf/rethink.pdf>

WORD OF THE WOODS

ADOPT-AN-ASH PROGRAM

Emerald ash borer (EAB) is an exotic beetle that has killed millions of ash trees and has now been found in Madison. The good news is that there is a treatment available to protect trees from EAB. If you would like to help save ash trees in the Village, please consider adopting an ash tree in your neighborhood or in one of the Shorewood Hills parks.

The Village will be working with a contractor who will administer treatments in the spring (shortly after leaf-out). Colored tape has been wrapped around public ash trees in the Village and we are currently in the process of identifying which trees are good candidates for treatment.

- ⊗ Yellow tape indicates an ash is a potential candidate for treatment.
- ⊗ Red tape means the tree will be removed.
- ⊗ Blue tape indicates the ash has been adopted and therefore will be treated in the spring.

Do you have an ash tree in your neighborhood or on your property that you would like to save? To be effective, treatment must be continued over time. The cost of the treatments will be \$8 per inch diameter of the tree every two years for as long as the tree is healthy. Contact the Forester, Corey George at 267-2680 or coreygeorge@shorewood-hills.org to discuss adopting an ash or contributing toward EAB treatments in the Village. Corey also has information on contract services to treat ash trees on private property.

BACKGROUND ON EMERALD ASH BORER

EAB is an exotic pest from Asia that has killed over 50 million ash trees in the US and Canada since its accidental introduction in the 1990s. The potential damage from this beetle rivals that of Dutch elm disease and chestnut blight. All North American ash species (green ash, white ash, black ash and blue ash) are susceptible. For more information go to: www.emeraldashborer.info.

WHAT IS THE POTENTIAL IMPACT? HOW MANY ASH TREES DO WE HAVE IN VOSH?

In 2008, the Village had approximately 415 public ash trees. In the last 5 years we've reduced that number to 320 (169 park trees and 151 street trees). The total public tree population in Shorewood Hills is 6,565. Ash trees (green ash and white ash) make up about 5% of that total. In addition to our public ash trees, 970 ash trees were counted on private property (2008). Note that many of the private ash trees had a trunk diameter less than 5" and were self seeded.

These are significant numbers but compared to most other communities, Shorewood Hills is in great

shape. Forestry guidelines recommend no more than 10% of any one species in a community forest. Currently, there are no species in Shorewood Hills that comprise over 10% of our public tree population. All ash trees combined (green ash and white ash species) make up only 4.9% of the public tree population. Many communities throughout the state and around the country have 15-30% of their urban forests comprised of ash. The City of Madison, for example, has approximately 21,700 ash trees, which is about 20% of their street tree population.

WHAT CAN YOU DO AS A HOMEOWNER?

- **Educate yourself** – Find out if you have ash trees on your property or in the Village right-of-way. Know the signs and symptoms of EAB. Go to: [Emerald Ash Borer info for Homeowners](#)
- **Report signs or symptoms of EAB** to the Village Forester at the Village Hall
- **Protect your ash** – Go to: [UW Homeowners Guide to EAB Insecticide Treatments](#)
- **Don't move firewood** - Follow the [Firewood Movement in Wisconsin Guidelines](#).
- **Participate in the Adopt-an-Ash program** – Fund the treatment of a public ash tree that you enjoy/admire

continued from page 9

THE WILDFLOWERS OF POST FARM PARK

Post Farm Park, the Village of Shorewood Hill's largest and most visited park, has a three acre natural area in addition to the many developed amenities (Community Center, Pool and Shorewood Hills Community Gardens). The natural area, which inhabits the northeast third of the park and is bounded by the two bike paths and University Station, has many beautiful wildflowers. Ongoing restoration is increasing the plant diversity and extending the blooming season, enabling the park to support more birds and butterflies.

The park has numerous spring wildflowers, which are most abundant in the area between the bike trail north of the railroad and the grassy area near the Scout Shack, including hundreds of Virginia Bluebell, Bloodroot, Solomon Seal, and dozens of Black Cohosh. Kathi Dwelle has restored a small wildflower area near the Community Gardens. This past spring the Parks Committee, with the help of the Village Forester, planted dozens of red Columbine in the woodland. When you visit the park in May, take time to look at some of these beautiful spring wildflowers.

As part of the continuing restoration, dozens of new trees and flowering shrubs have been planted, including Pagoda Dogwood, Bur Oak, and Redbud. For the last several years the Village Forester has planted native savanna seeds (donated by Tom and Kathie Brock from their Pleasant Valley Conservancy) near the big open grown oak northeast of the Scout Shack and in other sunny areas of the park. Established summer blooming plants include blue Spiderwort, pink Monarda (Bee Balm), yellow Brown-eyed Susan, blue Tall Bellflower, and graceful grasses like Bottlebrush Grass.

Although weed control will continue, this year the Parks Committee volunteers and the Forester will plant additional wildflowers including pink Wild Geranium, blue Wild Lupine, and Golden Alexander. Previous Buckthorn and Honeysuckle clearing should allow more of the savanna plants to thrive.

Come enjoy the Village's woodland/savanna restoration. Share it with your friends and neighbors. The Parks Committee welcomes volunteers who want to weed, plant, or care for this restoration (contact Forester Corey George at coreygeorge@shorewood-hills.org or Roma Lenahan at 238-5406). Feel free to ask either of them if you want to learn more about this restoration and some of its plants.

Garlic Mustard in the Spring

Garlic Mustard Season is Upon Us – A friendly reminder to residents that garlic mustard is a ‘Noxious Weed’ and **must be removed from all properties within the Village**. If not removed, the Village has the legal authority to have the plant removed at the property owner's expense.

Garlic Mustard Disposal – Garlic mustard plants that are pulled **must be placed in clear plastic bags**. Dispose of the bags by:

- Placing the sealed bags in your trash cart or...
- Putting the sealed bag on top of your trash cart or...
- Depositing the sealed bags into one of the Village trash dumpsters at the Fire Station, the Village Hall, or Pool/Community Center.

Flowering Garlic Mustard

If you choose to use an herbicide like ‘ROUND-UP,’ it is best to spray in April when the plants are young. Spraying plants that are already flowering is not as effective and the plant will most likely still go to seed. Spraying early also reduces the chances of killing desirable plants that have not emerged yet.

Oak Tree Pruning and Oak Wilt – Please **DO NOT** prune oak trees after **April 1**. **Village ordinance prohibits pruning or removal of oak trees between April 1 and October 1.**

CANOE / KAYAK SHARE PROGRAM

Enjoy Lake Mendota by kayak or canoe this summer by joining the Village's Canoe / Kayak Share Program. The \$30 annual membership fee per household includes unlimited use (as available) of the Village's canoes and kayaks for the season May 15 to October 15. The 2014 membership form is available in the Recreation section of the Village website (www.shorewood-hills.org) or you can fill out the on-line form at the front counter at the Village Hall.

Adult residents are eligible for membership. Guests may use the boats when accompanied by a member. Parents are fully responsible for children, and children under the age of 18 cannot take out boats alone.

Equipment available: Three canoes, two sport kayaks and one double kayak. Paddles and a limited variety of life vests are also available. For more information read the on-line membership form or call Dawn Daly at 231-6264.

TENNIS PROGRAM

The Shorewood Hills Summer Tennis Program is a 7 week program offering instruction in a progressive, focused style that emphasizes fun. There are classes for all ages and skill levels.

The season kicks off with an Open House on June 13 so you can meet the staff. Classes start on June 16 and go through August 1. Registration is on a first come, first served basis. The registration form is available on-line at: <http://www.shorewood-hills.org/recreation.htm> or you can fill out the on-line form at the front counter at the Village Hall. The registration deadline is **May 16, 2014** but classes fill up quickly, so consider registering early.

TENNIS INSTRUCTORS NEEDED

The Shorewood Hills Summer Tennis Program needs tennis instructors to assist with the program from June 16 to August 1. We are looking for rising high school juniors or older to work 5-15 hours per week teaching tennis to children and adults. For more information contact Leslievhtaylor@mac.com.

ULTIMATE FRISBEE

Come on out for pick-up Ultimate Frisbee on Sunday afternoons, starting May 4 at the Heiden Haus from 3:30-4:30 (field conditions permitting). Bring a Frisbee® if you have one. We have extras. Adults and children welcome. Children ages 7 and up. Beginners welcome. Please e-mail Lynn Peterson if you have any questions: lynnsingsyoga@gmail.com

GALLERY 800 UBD

“**Formation**” a photography exhibit by Ting-Li Lin will open on May 2, 2014 from 5:00 pm to 9:00 pm. Ting-Li was awarded First Prize in the Ansel Adams Gallery Photo Contest in 2009. You will find his art expressed in contrast, texture, form, color, and illusion. He was recommended by Paul Douglas, at Douglas Art & Frame in Shorewood Shopping Center.

Ting-Li Lin's interest in photography began in 2001, after a trip to Yellowstone National Park. By 2003, photography had become his serious avocation. His art is directly inspired by nature, landscape, classical music and accomplished through the discipline of science and sports. This led him to explore different types of photography and to develop various concepts and subject matters. Classical music has informed his life from an early age and inspires his artwork. Science has helped him understand the nature in landscapes. Athletic discipline required to play a sport at international levels is related to being able to recognize immediately a subject and react. His photography will be on exhibit until the end of September. **Gallery 800 UBD**, located at 800 University Bay Drive, is open weekdays from 9:00 am to 6:00 pm or by special appointment (238-0623). Parking on Marshall Court. – Joyce Bromley

JUNIOR GOLF PROGRAM

The Shorewood Hills Junior Golf Program for 2014 will be conducted at Blackhawk Country Club in combination with the Club members' Junior Golf Program again this year. The synergies resulting from combining the programs has maximized resources and saved resident juniors money.

The combined Junior Golf program will start in June after school is out on Wednesday mornings. Participant fees are \$125. Parent / Adult walkers are required. All participants must have their own equipment.

The registration form is available on the Village's website: www.shorewood-hills.org/recreation.htm or you can fill out the on-line form at the counter at the Village Hall. The deadline to register is **Wednesday, June 11, 2014**.

ADULT GOLF PROGRAM

The Shorewood Hills Adult Golf Program for 2014 will be conducted at Blackhawk Country Club, in a similar fashion as last year, on two Monday mornings in the months of May, June and July. The specific dates will be May 5, May 12, June 2, June 9, July 14 and July 21. Residents will have the opportunity to select one, two, four or all six sessions in which to participate.

Each participant will receive instruction in the game of golf from Matt Hartman, the head golf pro at Blackhawk Country Club, and have an opportunity to practice what they learned by playing 9 or 18 holes of golf prior to noon on the program dates listed above. Beginners are welcome.

Group lessons will be scheduled at either 7:00 am or 8:30 am. The cost will be either: 1) \$30 for 1 session; 2) \$55 for 2 sessions; 3) \$100 for 4 sessions; or 4) \$150 for all 6 sessions.

The cost includes instruction from a PGA Pro, range balls, range ball clean up and the cost of golf after instruction (motorized cart extra). The on-line registration form is available at: www.shorewood-hills.org/recreation.htm or you can fill out the on-line form at the counter at the Village Hall. The deadline for registration is May 2.

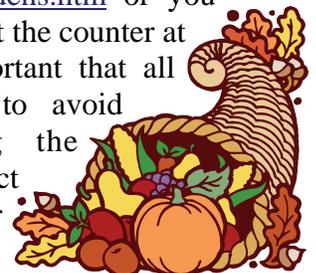

The program provides a wonderful opportunity for Village residents to learn and enjoy the game of golf in a beautiful setting. If you have any questions, please contact the Adult Golf Coordinator, Win Sager at 220-5833 or winsager@gmail.com.

COMMUNITY GARDENS

Spring will eventually arrive. Village residents are invited to grow vegetables and flowers in a beautiful setting at Post Farm Park (directly north of the community center and pool). A small rental fee is charged for each plot. Our Community Garden provides a great opportunity to garden in a group environment with friendly neighbors. If you're a new gardener, neighbors will help you get started. Depending on weather conditions, the normal opening of the garden is May 1.

The Community Garden consists of 59 large (20' x 20') "annual" plots and 23 small (10' x 10') "perennial" plots, which are assigned to residents each year. The large annual plots are tilled before the normal growing season. The smaller perennial plots are not tilled and are intended for multi-season, early or late crops. Maintenance of garden plots is the responsibility of the assigned gardener. The Village provides water, compost, and wood chips on site. A committee of community gardeners oversees the assignment of plots and the operation of the garden throughout the year.

The application form and governing rules for the Community Garden are on-line at: www.shorewoodhills.org/gardens.htm or you can fill out the on-line form at the counter at the Village Hall. It is important that all applicants read the rules to avoid misunderstandings during the season. Questions? Contact Peter Fisher at 236-4400 or fishergalloway@gmail.com.

PET LICENSES

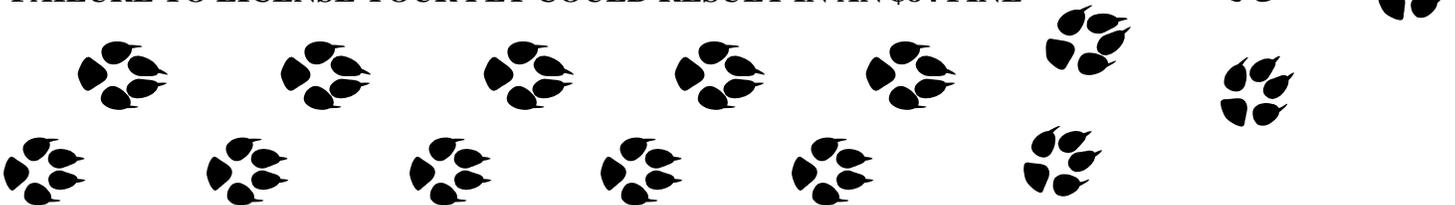

All dogs and cats in the Village must be licensed annually. To obtain a license, please bring your pet’s rabies vaccination record, including the vaccine’s expiration date, to the Village Hall. If your dog or cat does not need a rabies booster, you may bring in the 2013 Village-issued license tag number or your copy of the 2013 license. We can obtain the necessary information from that record.

The initial deadline for obtaining licenses was **April 1, 2014**. There is a \$5.00 penalty after this date. The late fee increases to \$10.00 after **June 1, 2014**. REMEMBER, even if your dog or cat is due for the rabies vaccination after the deadline, licenses must be obtained by the deadlines.

FEE (Dogs): Neutered or spayed.....\$15.00	FEE (Cats): Neutered or spayed \$8.00	
Not neutered or spayed.....\$20.00	Not neutered or spayed... \$13.00	

Do NOT purchase your license from your veterinarian (that is a City of Madison program).

FAILURE TO LICENSE YOUR PET COULD RESULT IN AN \$84 FINE

Editorial Staff: Karl Frantz, Administrator; Colleen Albrecht, Clerk; David Sykes, Web Manager.
Contributors: Dennis Pine, Police Chief; Corey George, Forester; Karla Endres, Deputy Clerk; John Mitmoen, Water Department; Jamie Weitzel, Police Department; Erik Johnson, Pool; Annette Mahler, Garden Club; Roma Lenehan, Enjoy Post Farm Park; Gary Johnson, July 4th; Joyce Bromley, Gallery 800 UBD; Alex Young, Basketball; Jin Cho & Leslie Taylor, Tennis; Win Sagers, Golf; Peter Fisher, Community Gardens; Dawn Daly, Canoe/Kayak Share Program; Ultimate Frisbee, Lynn Peterson.

GARDEN CLUB EVENTS

Save the Date:
PLANT & MULCH SALE
Saturday, May 10, 2014 from 9:00 am to noon

The annual plant sale is a great opportunity to purchase plants that really grow in Shorewood Hills conditions! Tried and true specimens! The popular cocoa mulch will be available too.

CLASSIFIED ADVERTISEMENTS

SERVICES

Green Acres Lawn Service – Now is the time to sign up for lawn mowing, fertilizer and weed control programs, lawn aeration, shredded bark mulch sales and spreading, gutter and downspout cleaning, sidewalk and driveway edging, bush pruning and tree work. Free estimates. Fully insured. Call Rob at 831-8050 or email rkuster@chorus.net

Guitar Lessons – Located in the Village. Over 15 years teaching experience. References upon request. Sign up now for a free interview lesson. Contact Aaron Katcher at 608-661-0226 or visit <http://katcherinc.com> for more information.

Expeditions available for Teenagers in the Northwoods! Do you have a teen that needs a challenge this summer? Forward Learning Youth & Young Adults (FLYY) is a youth and family serving, nonprofit organization that specializes in working with teens through a unique experiential education program. FLYY has availability for a 25-day wilderness expedition, as well as parent skills and support for the entire family. No camping or backpacking experience required. NOW OFFERING: 25-day wilderness expeditions for males 15-18 yrs from 5/15 to 6/14. Females 14-18 yrs from 7/31 to 8/24. FLYY provides young people an opportunity to experience being a part of something positive that is larger than they are, to give without expecting anything in return, to lend support to others, and to build confidence by completing something challenging. Contact FLYY at (608) 819-6390 or at info@flyyexpeditions.org to enroll. Learn more about our curriculum at: www.flyyexpeditions.org.

FOR RENT

5 BR house on a quiet street for rent – 1107 Oak Way, 2½ bath, dinette, formal living and dining, big family room, large master bedroom, 2 fire places, 2 car garage, large screened porch. Central AC. Pets OK. Available from July. Contact Kazuko (kazuko44@hotmail.com / 914-920-5001 (home) or 917-686-3601 (cell)).

SERVICES (continued)

Experienced Piano & Voice Lessons Teacher in Shorewood Hills now accepting new students. More Info: www.lynnpetersonyogaandmusic.com.

Lawn Moving – Reliable quality service by Malcolm and Mozhiah Clark. Village references. Call 238-2442.

LEAGUE BULLETIN ADVERTISING POLICY

The Shorewood Hills Community League Bulletin accepts ads from Village residents and businesses. The League does not accept non-resident commercial ads. Non-residents wishing to buy or rent homes in the Village may place ads for such if they provide a Village reference. Limit ads to 150 words or less.

The Village staff manages the Bulletin advertising program for the League. If you would like to place an ad, contact **David Sykes** at: dsykes@shorewood-hills.org. Commercial ads are 50¢ per word. Other resident ads are 30¢ per word. Residents under the age of 18 may place ads at 10¢ per word. Deliver payment to the Village Hall, 810 Shorewood Blvd, Madison, WI 53705. Checks should be made out to: Village of Shorewood Hills (or VoSH).

The Bulletin is published monthly. Ads are due by the 15th of each month. The League and the Village are not responsible for, nor do they endorse, the services advertised.

We mourn the loss of

Dorcus Volk – Sweetbriar Road resident

The League would like to acknowledge births and deaths of Village residents. Please help by notifying Susy Cranley at 695-7763 or susycranley@charter.net with such information.

SHOREWOOD HILLS WATER UTILITY

2013 Water Quality Report

In this report we provide information about the quality of your drinking water. The Village of Shorewood Hills purchases treated water from the City of Madison Water Utility. The drinking water provided by Madison has met or surpassed all Federal and State standards for health and safety (see the Water Quality Table on a subsequent page). To obtain a summary of the source water assessment or if you would like to know more about the information contained in this report, please contact Shorewood Hills Public Works water specialist John Mitmoen at (608) 267-2680. More information is also available on the City of Madison's website at: MadisonWater.org

WHERE DOES MY WATER COME FROM?

The Madison water system consists of 22 wells and over 840 miles of interconnected pipes. The source of the Village's water is groundwater well #14 that serves the near west side of Madison, Shorewood Hills and portions of the University of Wisconsin. We do get water from two other west side wells (#6 & #19) during higher demand times.

Quality & Reliability

WHAT IS THE SOURCE OF MY TAP WATER?

The drinking water Shorewood Hills purchases from Madison comes from a deep sandstone aquifer, an underground rock formation where water is stored in small spaces between and within rock. Groundwater in the Madison area originates as rain or snow that falls in Dane County, soaks into the ground, and is filtered through layers of soil and rock before replenishing the aquifer. Natural filtration produces high quality water for us to enjoy.

WHAT KEEPS OUR WATER SAFE?

The high quality aquifer supplying our drinking water requires little treatment. The Madison Water Utility disinfects the water with chlorine to reduce the risk of microbial contamination. A small amount of chlorine kills bacteria and viruses that can be present in groundwater. Chlorine also travels with the water and is ready to kill microbes that it might encounter in the system. Our goal is to maintain a chlorine residual above 0.1 milligrams per liter (mg/L) at all points in the distribution system. Typical concentrations range from 0.2 to 0.4 mg/L.

HOW ELSE IS THE WATER TREATED?

Fluoride is added to Madison drinking water to improve dental health and reduce tooth decay. The US Centers for Disease Control and Prevention (CDC) and Wisconsin Department of Health Services recommend maintaining an average fluoride level of 0.7 mg/L. Water from each well is tested daily to achieve this target level. In 2012, the system-wide average of 5,371 tests was 0.68 mg/L.

DO I NEED TO TAKE SPECIAL PRECAUTIONS?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as those with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Environmental Protection Agency's Safe Drinking Water Hotline at 800-426-4791.

Cryptosporidium and *Giardia*, two organisms commonly linked to water-borne illness, are found primarily in surface waters such as lakes and rivers. Because Madison's drinking water comes from a deep groundwater aquifer, these organisms do not pose a significant health risk in Madison tap water.

Do Your Part To Protect Groundwater Quality

- » Dispose of your household hazardous chemicals through Clean Sweep, danecountycleansweep.com
- » Use non-toxic or biodegradable cleaning products that are gentler on the environment, madsewer.org/documents.htm
- » Promote healthy lawns and gardens without the use of harmful chemicals, clean-water.uwex.edu/pubs

POTENTIAL CONTAMINANTS IN DRINKING WATER AND THEIR LIKELY SOURCES

Sources of drinking water, both tap water and bottled water, include rivers, lakes, springs, streams, ponds, reservoirs and wells. As water travels over the surface of the land and through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Types of potential contaminants and their likely sources include:

- **Microbial contaminants**, such as viruses and bacteria, may come from leaky sewer pipes, septic systems, agricultural livestock operations, and wildlife.
- **Inorganic contaminants**, including metals, minerals, nutrients, and salts, can occur naturally or they may result from urban stormwater runoff, industrial wastewater discharges, mining, or farming activities.
- **Organic contaminants**, including synthetic and volatile organic compounds, are by-products of industrial processes that can come from chemical spills, gas stations, urban stormwater runoff, and septic systems.
- **Pesticides** and herbicides may come from a variety of sources such as agriculture, urban stormwater runoff and residential use.
- **Radioactive substances** may occur naturally in rock formations and groundwater

In order to ensure that tap water is safe, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Routine monitoring helps to ensure that drinking water concentrations of any substance remain at safe levels.

MICROBIOLOGICAL TESTING

Bacteria – To ensure drinking water safety, routine bacteriological tests are conducted. On average, the Madison Water Utility collects over 200 distribution samples each month from representative locations including two per week from Shorewood Hills. The Village collects two separate sample each month and delivers them for testing. The samples are tested for coliform bacteria, indicators of potential contamination. In 2012, none of these required samples showed the presence of coliform bacteria. These results reflect good source water quality and adequate disinfection maintained in the distribution system.

THE EPA ON CONTAMINANTS

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's (EPA) Safe Drinking Water Hotline, 800-426-4791.

How to Read the Water Quality Data Table

The EPA and Wisconsin Department of Natural Resources (WDNR) establish the safe drinking water regulations that limit the amount of contaminants allowed in drinking water. The table shows the concentrations of detected substances in comparison to the regulatory limits. Substances not detected are not included in the table.

Maximum Contaminant Level (MCL)

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available technology.

Maximum Contaminant Level Goal (MCLG)

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Action Level (AL)

The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a public water system shall follow.

Units in the Table

- One milligram per liter (mg/L) equals one part per million (ppm)
- One microgram per liter ($\mu\text{g/L}$) equals one part per billion (ppb)
- One milligram per liter equals 1,000 micrograms per liter
- One ppb is analogous to one second in 32 years
- Picocurie per liter (pCi/L) is a measure of radioactivity
- nd = non-detect

IMPORTANT NOTE ABOUT THE TABLE: The table reports the maximum and minimum concentrations for each substance found in at least one local water sample. Contaminant levels reported in the table may not be representative of the water quality at your home. Visit madisonwater.org for more information about water quality in the Village purchases from the City of Madison.

Water Quality Table

Substance Detected (units)	Ideal Goal (MCLG)	Highest Level Allowed (MCL)	Medium Level Found	Range of Results	Sample Date (if prior to 2013)	Violation (Yes/No)	Typical Source of Substance
Inorganic Contaminates							
Copper (ppm)	AL=1.3	1.3	0.166	0 of 10 above action level	6/29/11	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
Lead (ppb)	AL=15	0	2.40	0 of 10 above action level	6/23/11	No	Corrosion of household plumbing systems; Erosion of natural deposits
Disinfection By-Products							
Haloacetic Acids (ppb)	60	60	1	1-1	11/15/12	No	By-product of drinking water chlorination
Total Trihalomethanes (ppb)	80	0	2.5	1.3-2.5	11/15/12	No	By-product of drinking water chlorination

Additional Health Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Shorewood Hills Water Utility is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

Information on Monitoring for Cryptosporidium and Radon

Our water system did not monitor our water for cryptosporidium or radon during 2013. We are not required by State or Federal drinking water regulations to do so.

Other Compliance – Monitoring and Reporting Violations

DBP Monitoring/Reporting – Distribution System Testing – Compliance period: 11/1/2013 to 11/30/2013

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the compliance period noted in the above table, we did not complete all monitoring or testing for the contaminant(s) noted, and therefore cannot be sure of the quality of your drinking water during that time.

Actions Taken – Added tests to the annual testing schedule for staff.

Lead and Copper

The year 2012 marked the successful conclusion to the lead service line replacement program in the City of Madison. This initiative was undertaken to reduce the occurrence of lead at the customer tap. Water quality tests conducted in 2011 (see table) show that lead and copper corrosion have been minimized.

Unregulated Contaminants

Chromium (VI)

The Madison Water Utility tests each well twice annually for total and hexavalent chromium. Hexavalent chromium is not currently regulated by the EPA; however, the agency is evaluating nationwide occurrence of this contaminant in public water supplies and whether a meaningful public health risk reduction can be achieved by regulating the substance. Madison wells range from non-detect to 2 ppb. An investigation by the Wisconsin Geological and Natural History Survey concluded that hexavalent chromium occurs naturally in Madison area aquifers. The current MCL for total chromium, which includes chromium (VI), is 100 ppb.

UCMR3

Every five years, the EPA identifies substances that are suspected to be present in drinking water but do not have health-based standards set under the Safe Drinking Water Act. Testing for the third Unregulated Contaminant Monitoring Rule (UCMR3) will occur during 2013-2015. See water.epa.gov/drink for more information.

The Madison Water Utility conducted pre-screening sampling at some wells in December 2012. Twenty-two contaminants, including seven hormones, were not detected at any of the wells tested. Cobalt (#19); 1,1-dichloroethane (#9); 1,4-dioxane (#11 and #14); and strontium (six wells) were found at low levels at some wells. The Madison Water Utility is required to sample all of its wells twice during 2015.
