SAFETY FIRST – 24/7 Access for Emergency Vehicles

The Problem: Existing Village ordinance(s) permit parking on one or both sides of many streets too narrow to allow the timely passage of emergency vehicles and other essential municipal service vehicles such as snowplows and garbage trucks.

Background: The problem is both practical and longstanding. It has been documented (and illustrated) in a memorandum from former Fire Chief Anderson and most recently in an analysis performed by the Village engineer, Brian Berquist. Emergency vehicles such as fire and emergency medical service (EMS) trucks generally require an open lane of at least 10 feet to safely navigate our streets. Allowing for side mirrors, parked cars occupy a space of roughly 8 feet (with snow banks, people may use more than 8 feet to allow passengers to exit their vehicle). Finally, some maneuvering room around

CALENDAR OF EVENTS

All events will be at the Village Hall unless otherwise noted***

MAY

- 8-10 Spring Cleaning Event (*see article on page 6*)
- 11 Municipal Court (Traffic) 5:00 pm
- 11 Parks Committee 5:30 pm
- 11 Public Works Committee 7:00 pm
- 12 Pool Committee 6:30 pm
- 12 Plan Commission 7:00 pm
- 13 Finance Committee 5:30 pm
- 16 Garden Club Plant & Mulch Sale (*see League Bulletin*) . 9:00 am
- 18 Board of Trustees 7:00 pm
- 23 Shorewood Hills Pool Season Begins
- 25 **Memorial Day Holiday** (Village Hall closed)

JUNE

- 2 Pool Committee 6:30 pm
- 8 Municipal Court (Traffic) 5:00 pm
- 8 Parks Committee 5:30 pm
- 8 Public Works/Public Health & Safety Committees 7:00 pm
- 9 Plan Commission 7:00 pm
- 10 Finance Committee 5:30 pm
- 15 Board of Trustees 7:00 pm

** The calendar includes all meetings and events submitted at the time of publication

*** Meeting dates/times are subject to change. Check with the Village Hall or the committee chair.

MAY - JUNE 2015

HIGHLIGHTS FROM THE APRIL 21, 2015 MEETING OF THE BOARD OF TRUSTEES

(Complete detailed minutes will be available on our website or at the Village Hall)

Oath of Office – The recently elected Trustees took the oath of office.

Attendance – All Trustees were in attendance.

Consent Agenda – In an effort to expedite meetings, items on the consent agenda are considered as a group and are adopted with one motion. Any Board member may unilaterally remove an item from the consent agenda if he or she believes the item needs discussion. Consent agenda items included approval of the March 16 open and closed session minutes; a special event street use permit for the July 4 Tri It mini-triathlon; and three neighborhood block party permits: May 25 Burbank Place; May 31 Wood Lane; June 7 Crestwood Drive.

Hire of seasonal employees and part-time police officer – This item was removed from the consent agenda because some of the Trustees have children applying for positions with Land Recreation and the Pool. The Board unanimously approved the hiring of seasonal staff for Forestry, Public Works, Four Corners, summer CSO and Jeff Beck as a part-time police officer. The Board unanimously approved the hiring of seasonal staff for the Land Recreation program (6-0-1 with Mr. Imes recusing himself) and the Pool (5-0-2 with Mr. Imes and Mr. Benforado recusing themselves).

Resolution R-2015-3 – The Board read into the record and approved [resolution R-2015-3](#) thanking Robert Hurley for eight years of service as a Village Trustee.

Resolution R-2015-4 – The Board read into the record and approved [resolution R-2015-4](#) thanking Tim Rikkens for eight years of service as a Village Trustee.

Street Use Permit for Let's Eat Out Food Carts – The Board unanimously approved a street use permit for Let's Eat Out to place food carts in the Village this summer on Wednesday evenings May 6-August 26 contingent upon the Village receiving the necessary paperwork to do background checks on the vendors ([see article on page 8](#) and the *Community League Bulletin*).

Conditional Use Permit for deck/patio at 3626 Lake Mendota Drive – The Plan Commission held the required public hearing to replace an existing deck and railing with a lower, less obstructing deck without a railing. A conditional use permit is required since this house is on the lakefront of Lake Mendota and the deck would encroach into the lakefront setback line established by the Village. The Plan Commission recommended and the Board unanimously approved the conditional use permit.

Consider loan agreement with Blackhawk Country Club to pave parking lot under Village contract – The Board unanimously agreed to the loan agreement after Village Attorney Laura Callan clarified the terms of the agreement.

Consider proposed lease with Blackhawk Country Club – The Board discussed the results of the referendum question—859 votes were cast in the Spring election, 455 voted in favor of the resolution and 375 voted against. The Board discussed the mechanism by which Blackhawk's membership numbers could be verified from year to year while protecting the Club members' personal information. Blackhawk President Ben Dickey provided the Board with a summary of up-to-date financial information for the Club and expectations for the future. The Board and Village Attorney will evaluate a 1998 assignment agreement of the Club's bank's collateral interest. Mr. Sundquist indicated the Board would consider this matter further at its May 18 meeting.

Marketing plan for 700 UBD – The Board unanimously approved the marketing plan for the new apartment building to be built at 700 University Bay Drive to assure that the affordable housing units are advertised and provided to organizations and publications that serve minority and low income populations at the same time the apartments are marketed to the general public.

Termination of cross easements associated with 700 UBD project – There were numerous properties on the south side of Marshall Court that had cross easements allowing for travel through the privately held parking lots to access one another. As properties have been redeveloped and alternate access has been

**Wednesdays
5:30-7:30 pm
Near the Heiden Haus**

continued from page 2

provided, some of these easements have been vacated. The Village acquired the Kammer parking parcel and will convey a portion of it to 700 UBD and retain a portion for the bike path. The Board unanimously approved the agreement to terminate the cross easement that will no longer be needed.

Development agreement with 700 UBD – The Board approved the tax increment agreement for this project at its March 16 meeting. There were two items that were not finalized. The first involved the method to calculate the Fire/EMS payment to the City of Madison since the developer will reimburse the Village the incremental increases in those expenses. The second provides for a temporary construction easement, if needed, to construct the bike path. The Board unanimously approved these two additions to the agreement.

Authorize water valve, hydrant and stormwater maintenance work in association with 2015 street projects – Public Works Crew Chief John Mitmoen reported on a number of water valves and hydrants that are in need of repair or replacement. Most are in the areas associated with the street resurfacing project and should be done now to avoid ripping up the new asphalt later. These repairs were not included in the roads project bid package because the Village would have paid more to the general contractor who would have subbed out the work and charged ~5% for overhead. The Public Works Committee recommended and the Board unanimously approved an amount not to exceed \$50,000 to repair or replace hydrants, water main valves, and rebuild two storm inlets.

Appointment – Mr. Sundquist reported that a meeting has been scheduled for May 1 with stakeholders and the UW consultants working on UW’s master plan. They have invited up to eight representatives from the Village to discuss issues and the relationship between the University and the Village. Residents Carol Barford and Karla Knobel expressed interest in participating. Mr. Frantz, Mr. Benforado, Ms. Readel and Mr. Lederer would also like to attend the meeting. The group will have a pre-meeting get together over lunch also on May 1. Mr. Sundquist appointed and the Board unanimously approved the following committee assignments:

Committee	Chairperson	Trustee Member
Plan Commission	Sundquist	Benforado
Finance	Benforado	Sundquist
Personnel	Imes	Readel
Parks	Readel	
Recreation	Readel	
Services	Wade	
Public Health & Safety	Borisy-Rudin	Lederer
Public Works	Lederer	Borisy-Rudin
Golf		Wade
Pool		Lederer

Village President’s Report – Mr. Sundquist reported he has agreed to serve on the UW Master Plan Executive Leadership Committee which consists of Mr. Sundquist, the Madison Mayor, the UW Chancellor and a couple of vice Chancellors. They will meet 3-4 times a year to discuss the Master Plan.

Administrator’s Report – Mr. Frantz reported he has given approval to the Madison Scuba club to undergo an invasive species and lake cleanup project in the Beach House area. The club would remove milfoil (which is similar to Garlic Mustard in that it needs to be removed at the roots) and other debris from the lake bottom. The club is conducting a pilot project with the DNR to continue the cleanup throughout the summer and record the progress of the cleanup. The Madison Scuba club uses the Beach House area quite often and would like to do more service projects, , including adding picnic tables and a bike rack. Those additional improvements will be considered by the Waterfront Committee.

Plan Commission – Mr. Sundquist reported that John Flad submitted a revised proposal for the ATT Plaza property. The new plan reduced the size of the building to four stories (from five) and addressed other

continued on page 4

continued from page 3

concerns of the Commission. The Commission took no action on the matter. Mr. Flad also provided the Commission with preliminary information on the proposed Lodge II at the Pyare Square property. It would be of similar size and number of apartment units as the current Lodge apartments at Walnut Grove.

Recreation Committee – Ms. Borisy-Rudin reported that the Four Corners and Land Recreation programs are having difficulty finding replacement program coordinator parents for next year. The Committee met at the former Fire Station building and also discussed some possible uses for the empty spaces in the building.

Pool Committee – Mr. Lederer reported the repairs and reconstruction of the overhang of the pool/community center building are ongoing and should be completed before the pool season.

Adjourn – The meeting adjourned at about 10:27 pm.

FOURTH OF JULY VOLUNTEER HELP IS NEEDED

The Fourth of July celebration in Shorewood Hills has been a tradition almost as old as the Village itself. The work of planning and carrying out the day's activities had largely been the responsibility of the members of the Shorewood Hills Fire Department and Emergency Medical Service. Last year was the first July Fourth without our Fire Department and EMS but we had a good deal of help from volunteers in the community. From bartending at the Dance to hauling around tables and chairs to providing crowd control at the fireworks show, the community really stepped up to help.

We learned a lot from last year and have identified a number of tasks that will need bodies to complete. We are calling these '30 minute jobs'. These are jobs any able-bodied person can be of assistance, no special skills required. Some may take a bit longer than 30 minutes, some less.

- Help haul and setup tables and chairs for the Independence Day Dance (July 3 afternoon)
- Help serve beverages ("bartend") at the Dance (July 3 evening)
- Help serve beverages ("bartend") during the July Fourth activities (July 4 afternoon)
- Help set up the Art Fair (July 4 morning)
- Help blow up helium balloons (July 4 morning)
- Help clean up the stage games (July 4 afternoon)
- Help clean up the kids games and fire truck rides (July 4 afternoon)
- Help pick up the "Water Weasel" and hose (July 4 afternoon)
- Help pick up the waterfight hose and equipment (July 4 afternoon)
- Help clean up the golf course after the fireworks (July 5 early morning)
- Help haul tables and chairs back to the Community Center (July 5 morning)

There are some more involved jobs that would require a longer commitment and some extra, simple training.

- Providing crowd control before and during the fireworks show by monitoring the crowd control line from a golf cart (get a close up view of the show).
- Assist with the set up of the days activities during the morning of July 4.
- Assist with general clean up of the celebration at the Fire Station during the morning of July 5.

Many members of the Shorewood Hills EMS & Fire Association (formerly volunteers with the Fire Department and Emergency Medical Service) have decided to continue helping with the Fourth of July activities and other community projects. The group has been meeting every other month to conduct business, plan activities, and socialize. Membership in this Association is open to anyone who wishes to participate.

We hope we can continue with the full slate of activities this Fourth of July, but it will require some help. Please consider volunteering your time or even becoming a member of the Association. Contact David Sykes at the Village Hall (dtsykes@shorewood-hills.org or 267-2680) if you would like to help.

continued from page 1

corners for the long axle spacing of fire trucks is prudent. Therefore, Brian Berquist’s analysis recommended that Village roads should be at least 18 feet wide if parking is to be permitted on one side of the street and at least 28 feet if parking is to be permitted on both sides. Many Village streets narrower than these widths currently permit parking on one or both sides of the streets, potentially delaying the timely response of emergency services to Village residents and visitors and preventing the efficient delivery of essential municipal services.

Discussion: Minutes and associated information can be found on the Village website (www.shorewood-hills.org) or a hard copy obtained at Village Hall.

Recommendation: In advance of public comments on this issue, the Public Works and Public Health & Safety Committees (the Joint Committee) recommends further restricting parking as set forth below. Note that many Village streets are NOT listed and NO change is recommended in the parking ordinances on those streets. The Joint Committee feels it is imprudent to continue the status quo and rely solely on residents’/visitors’ good judgment to keep those streets open at all times to emergency vehicles. However, perhaps in the course of holding public meetings a better solution might be found or some adjustment to the attached parking restrictions might be warranted such as alternate side parking.

Next Steps: The Joint Committee has scheduled a public meeting on Monday, June 8, 2015 at 7:00 pm at Village Hall to inform and seek comments from the residents as to the problem, the proposed remedy and any alternatives or adjustments that might be warranted.

Conclusion: While emergency vehicles will do whatever is necessary to navigate the streets of the Village, including moving or towing cars or avoiding them altogether by driving up onto private property, these measures have their own costs and most importantly delay the emergency response by precious minutes, potentially jeopardizing lives and property. The Village has been fortunate (and lucky) that blocked streets have not resulted in tragic consequences. Although it is very tempting to assume the infrequent blockages will not occur during an emergency, such a gamble seems both imprudent and unnecessary. The Board and the Joint Committee are open to suggestions that minimize the inconvenience to residents/visitors and provide reasonable assurance that the streets will remain clear to emergency vehicle traffic at all times.

**Potential
Parking
Regulation
Changes:**

* *Cul-de-sac radius makes existing width difficult to navigate.*

** *Streets with no proposed changes are not listed.*

<u>Affected Street</u>	<u>Existing Width</u>	<u>Current Condition</u>	<u>Proposed Change</u>
Circle Close cul-de-sac*	19'	Parking both sides	No parking allowed
Swarthmore Alley	14'	Parking both sides	No parking allowed
High Close	11'	Parking both sides	No parking allowed
Highbury Rd (Tallyho-Topping)	18'	Parking both sides	No parking allowed
Beloit Ct	25'	Parking both sides	Parking one side
Blackhawk Dr (Sunset-BCC)	22'	Parking both sides	Parking one side

Wellesley Rd	26'	Parking both sides	Parking one side
Western Rd	23'	Parking both sides	Parking one side
Wood Ln	24'	Parking both sides	Parking one side

PROPERTY ASSESSMENT CHANGES / OPEN BOOK

If you took out a building permit or purchased property in Shorewood Hills last year, you may expect to receive a notice from the Village's assessment service, Accurate Appraisal. The letter will include information about the change in the assessed value of your property. Please contact Accurate Appraisal (800-770-3927) if you have any questions about the assessment. If you do not receive a letter from Accurate Appraisal, your property assessment for 2015 will be the same as it was in 2014.

You will have an opportunity to examine other Village property assessments for 2015 or speak directly to the assessor at **'Open Book'** which will be held on **Wednesday, May 20, 2015** from 5:00 pm to 7:00 pm at the Village Hall. Open Book appointments can be scheduled any time in the two weeks prior to the meeting.

Therefore, to make an appointment for Open Book, please log on to www.accurateassessor.com after **May 5, 2015** and click on the 'Appointment Schedule' link and select 'Shorewood Hills Village of.' You will be prompted for a password; the password for Village property owners is SH10. Alternately, you could call Accurate Appraisal directly to schedule an appointment (800-770-3927).

BOARD OF REVIEW

The Village's Board of Review, which consists of residents appointed by the Village Board, is charged with determining if a contested assessment is accurate. The Board will hold hearings on Tuesday, June 9, 2015 from 4:30 pm to 6:30 pm at the Village Hall. The Board will consider your request to revise your assessment. **Appointments are required.** Contact the Village Hall by Friday, June 5 to make an appointment.

Next Bulletin Deadline: Monday, May 18, 2015

TIME FOR SPRING CLEANING!

The Village's spring cleanup event has been a great success over the past few years. We have scheduled the dates for this year. On Friday, Saturday and Sunday, May 8, 9 and 10 the Village will have two 30 yard dumpsters available outside the Public Works garage from 8:00 am to 5:00 pm.

Bring items (not fit for donating or garage sales) that have been collecting over the winter or over the years and discard them once and for all. A Public Works truck will be available for recyclable metal items.

But we can't take everything. Certain materials are banned from landfills because of their toxicity. They require special disposal methods to prevent environmental damage. Some materials may not be toxic but are prohibited for other reasons. Some items are prohibited to encourage recycling. The Dane County Clean Sweep program (www.danecountycleansweep.com) may take some prohibited materials or the Village's waste hauler would be happy to discuss alternate methods of disposal for any of the items listed below. Please call [Pellitteri Waste Systems](http://www.pellitteri.com) at 257-4285.

Prohibited Materials:

- Appliances
- Asbestos
- Asphalt Shingles
- Batteries
- Brush / Grass / Leaves
- Office Paper
- Cardboard / Boxes
- Computes / Monitors*
- Dirt / Brick / Concrete
- Fluorescent Bulbs
- Light Fixtures
- Oil & Oil Filters
- Paint
- Recyclables
- Sharps / Needles
- Tires
- 30 & 55 Gallon Barrels / Drums
- Hazardous / Infectious Materials

** The Shorewood Hills EMS & Fire Association will be conducting a Computer and Home Electronics Roundup on a date to be scheduled in September.*

TENTATIVE ROAD RESURFACING SCHEDULE

The Village will be undertaking a large road resurfacing project this spring and summer. A significant number of streets will be resurfaced after being either milled or pulverized (depending on the condition of the road). Milling is a less invasive operation where the top layer of asphalt is ground off and then new asphalt is put down soon after. Pulverizing a road grinds up all of the asphalt and requires stone to be put down and rolled before asphalt can be applied. Parking on the streets may be prohibited during portions of the work. Below is a tentative schedule with ideal duration times (barring any unforeseen circumstances and the weather):

- May 25, 2015 (duration: 8 days) – Milling: Tally Ho Ln (west of 3325), Harvard Dr (2704-2935), Beloit Ct, Viburnum Dr, Oak Way, Edgehill Dr (1303-Wood Ln), Blackhawk Dr (3532-3602).
- June 15, 2015 (duration 10 days) – Milling: Lake Mendota Dr (3306-3334 & 3534-3610), Edgehill Pkwy, Shady Ln, Edgehill Dr (1005-1225).
- June 15, 2015 (duration 10 days) – Pulverizing: Sumac Dr, Crestwood Dr, Lake Mendota Dr (3334-3512 & west of 3696).
- June 29, 2015 (duration 10 days) – Pulverizing: Topping Rd (west of Highbury Rd), Swartmore Alley, Western Rd, Maple Ter.
- August 3, 2015 (duration 10 days) – Redesigning of the Edgehill Dr-Topping Rd intersection.

HARDEN YOUR HOME/VEHICLE FROM BURGLARY

Now that spring has arrived, more people are out and about. The warmer weather also brings a rise in the burglary rate each year. You as a resident can help assist with prevention and reduction of these crimes.

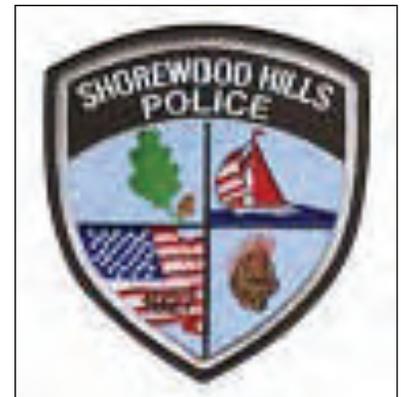

The two most important things you can do to secure your property are lock it up and make sure nothing is in plain sight. In your car, that includes change in your center console, GPS units, packages, etc. As for your home, bikes, toys, or yard equipment should be locked up or secured when not in use. Burglars see these items as invitations to take them. If they are hidden, there will be nothing to take. Be mindful of the garage door being left open for extended periods of time with no one in sight, it is an invitation to the opportunistic thief.

The next thing you can do to aid in preventing theft of your property is install deadbolts on all of your doors. Deadbolts are thick locks and make it much harder to break into homes. Also think about installing motion-sensing lights. This type of light tends to stop criminals from approaching a home and will alert you to any strange movement at night. The final security feature to consider is window vent locks. These allow a window to be opened for ventilation, but not opened far enough for someone to crawl through.

Properly securing and taking care of your property will help in the effort to reduce break-ins and burglaries in the coming months and throughout the year. With your help and the efforts of the police, we can help prevent these crimes together as a community. Additional tips include:

- Secure all entry doors, sliding glass doors and window in your home at night and when away.
- Do not leave valuables or keys in your vehicle(s).
- Contact the U.S. Postal Service, newspaper delivery, and the Police Department when going out of town. A Vacation Security Report form can be found on the Village's website or at the Village Hall.
- Inform trusted neighbors when you will be away and have them check on your home.
- Leave lights on or buy light timers so others think you are home. Lighting is the most cost effective security you have.
- Remove or trim trees/shrubs that may hide windows to your home and provide screening from view for a potential burglar.
- Take pictures of valuables and record serial numbers if the items have them.
- Contact the Police if you notice something out of place.

Thank you for helping to keep the Village a safe place to live.
– Shorewood Hills Police Department

DON'T BE A VICTIM OF IDENTITY THEFT

Did you know 1 in every 3 people will become the victim of identity theft? Approximately 15 million United States Residents are victims of identity theft each year, totaling upwards of \$50 billion in financial losses.

Protect yourself. Come to one of Pellitteri's upcoming FREE Shred Events! Bring up to 3 banker boxes worth of paper files to be destroyed. Staples and paperclips do not need to be removed. Binders, credit cards, DVD/CDs, floppy discs, and hanging file folders are prohibited. They will not be disposing of empty boxes.

Upcoming FREE Shred Events (in our area):

- Saturday, April 18 – Middleton Clean & Green Shred Event – Nursery Dr. at Deming Way, Middleton from 9:00 am to 1:00 pm
- Saturday, April 25 – SVA Certified Public Accountants & BBB Shredfest – 1221 John Q Hammons Dr., Madison from 8:30 am to 11:00 am
- Saturday, April 25 – BBB & WISC-TV 3 Shredfest – 7025 Raymond Rd., Madison from 8:30 am to 11:00 am
- Saturday, May 9 – Fitchburg Shred Event – Marketplace Drive (behind Oak Bank) from 8:00 am to 11:00 am
- Saturday, July 25 – Dane County Credit Union – 709 Struck St., Madison from 8:00 am to 10:00 am (DCCU will also be collecting food pantry donations)

UW CREDIT UNION SHRED-IT EVENT

The UW Credit Union's Annual Shred-It event will be held in May at the Corporate Office parking lot, 3500 University Avenue on:

- Friday, May 15 from 3:00 pm to 6:00 pm
- Saturday, May 16 from 9:00 am to 1:00 pm.

You may bring up to three boxes of your confidential paper documents to be shredded.

For more information go to: www.pellitteri.com and click on the '**Confidential Paper Shredding**' link.

GALLERY 800 UBD

800 University Bay Drive – Corner of University Bay Drive and Marshall Court (parking on Marshall Court)

"Beyond Boundaries" by photographer Alina McIntyre opens on Friday, May 1, 2015 from 5:00 pm to 9:00 pm. She is one of the featured artists in Madison Gallery Night sponsored by the Madison Museum of Contemporary Art (MMoCA).

You will find that her photographs vividly engage viewers in nature's beauty, tranquility, and inaccessibility. From the caves of Wisconsin to Alaska's expansive wilds, Ms. McIntyre's stunning images reflect her keen commitment to the natural environment. By combining her interests in science, hiking, and mountain backpacking, Ms. McIntyre transports the viewer into the remote wonders of the natural world.

Many of you know Alina McIntyre from the Village as a resident on Blackhawk Drive. Others may know her through her contributions to the University of Wisconsin-Madison Arboretum where she has worked as a naturalist's assistant and on land stewardship activities with Ecological Restoration Work Parties. Others will come to know her through her photography.

- Joyce Bromley, Curator

FOOD CARTS ARE A GO!

The Village Board has approved the necessary permits for the 'Let's Eat Out!' food carts to set up in the Village every Wednesday evening this spring and summer starting May 6. Each Wednesday from 5:30 pm to 7:30 pm there will be five food carts, one specializing in desserts, conveniently located south of the school yard near the Heiden Haus. There will be different carts rotating in and out each week to add variety. A percentage of sales on the first night (May 6) will go to the Shorewood School PTO.

This is a great way to get to know neighbors, build community and help local entrepreneurial businesses.

SHOREWOOD HILLS ELECTION RESULTS (* indicates who won the overall election)

859 of ~ 1,500 registered voters in the Village cast ballots at the April 7, 2015 election. That is better than 55% (the Dane County average came in at 18%).

<u>Village President</u>	<u>Village Trustee (top 3)</u>	<u>Municipal Referendum: Should the Board of Trustees approve an amendment to the current lease with Blackhawk Country Club...?</u>

RECREATION OPPORTUNITY – ATTENTION ALL SOCCER FAMILIES!

There is interest in starting a family soccer league this summer in Shorewood Hills and the organizers are looking for any families who may be interested (you do not need to live in Shorewood to participate). The idea is still in the planning stages and your input is needed. Please contact Kate and Todd Young at kateyoung22@gmail.com a.s.a.p. if you are interested.

The general format could be 6-8 teams made up of whole families of all ages (or a combination of families), playing on a small field in the Village with 5 players plus a goalie on each side. Games would be once a week for an hour at a scheduled time and day (possibly Wednesday evenings or Sunday afternoons). This would be low key and fun fun FUN (scores and stats would be kept so there can be friendly competition energy)! All ages and experiences encouraged to respond. The season could start and end with a big family potluck, with lots of fun in between.

PET LICENSES

All dogs and cats in the Village must be licensed annually. To obtain a license, please bring your pet’s rabies vaccination record, including the vaccine’s expiration date, to the Village Hall.

The initial deadline for obtaining licenses was **April 1, 2015**. There was a \$5.00 penalty after April 1. The late fee increases to \$10.00 after **June 1, 2015**. REMEMBER, even if your dog or cat is due for the rabies vaccination after the deadline, licenses must be obtained by June 1 to avoid the increased late fee.

BASE FEE (Dogs):

- Neutered or spayed \$15.00+late fee
- Not neutered or spayed \$20.00+late fee

BASE FEE (Cats):

- Neutered or spayed \$ 8.00+late fee
- Not neutered or spayed \$13.00+late fee

Do NOT purchase your license from your veterinarian (that is a City of Madison program). If a pet is lost or running at large in the Village, it is much easier to locate the owner(s) when the records are at the Village Hall. Also, the Village receives credit from Dane County for licenses only if your pet’s records are on file.

FREE RANGE CATS AND DOGS RUNNING AT-LARGE

Please be a good neighbor and friend to song birds in the Village. Cats roaming free have been known to kill area birds, which is distressing to some residents. Another way to be a good neighbor is to maintain control of your dog. Village ordinances state that cats must wear a bell collar such that the bell can be heard up to 15’ away and dogs must be kept under the control of someone by leash or otherwise. Please don’t let your dog run at-large as it may ruin neighbors’ flower beds, dig up their yards or possibly run into an elderly person out for a walk. Further, be sure to ALWAYS pick up after your dog and consider keeping your cat indoors. Thank you!

VILLAGE TREASURER WANTED

The current Village Treasurer David Kuenzi has tendered his resignation due to new commitments. The Village thanks him for his service and now needs to find someone interested in filling this volunteer position.

The Treasurer is a required municipal position in the Wisconsin state statutes and the duties of the treasurer are spelled out in the code. Because this is a volunteer position many of the day to day activities are fulfilled by the paid staff at the Village Hall. The Village Clerk and Administrator are both appointed as Deputy Treasurers. However, the treasurer plays an important role in adding to the checks and balances that help a small organization such as ours compensate for less than optimal duty segregation. The treasurer provides important input to the Finance Committee and Board on matters they deal with including financial policies and procedures that Mr. Kuenzi assisted in developing. The Treasurer has also customarily reviewed the monthly list of bills and recommended their payment to the Board.

Normally the Treasurer attends the monthly Village Board meeting that is usually held on the third Monday at 7:00 pm. The bills scheduled for payment are placed at the front of the agenda so the treasurer may leave after approval. The treasurer also attends the monthly Finance Committee meeting that usually occurs the Wednesday before the Board meeting at 5:30 pm. The Committee probably averages about nine meetings per year with four to five of those meetings occurring in September and October when the Village considers the ensuing year's budget. Of course attendance at every Board and finance meeting is not required or expected due to vacations, work, family or other commitments.

The following are excerpts from the Village code:

Treasurer. The powers and duties of the treasurer shall be those outlined in Wis. Stats. §61.26. The treasurer is authorized to have a facsimile made of his/her signature which is to be held in the custody of the Deputy Clerk who is not able to countersign draws on the Village Treasury.

The village treasurer shall be an ex-officio, voting member of the finance committee, however, the treasurer's membership shall not enlarge the membership of the committee.

Finance. The village finance committee shall: review the proposed annual budget and recommend the level of the annual tax levy to the village board; develop and recommend to the village board financial policies including: management of village funds, investments, accumulation of reserves, financing of debt, and other related matters.

If you are interested in learning more about this position feel free to contact David Kuenzi or the Village Administrator for more information.

SAVE THE LAKES – RETHINKING YARD CARE

Whether you live in the city or the country...whether your home is large or small...whether you have a lot of time and money to invest in your yard or just a little, there is something you can do to improve water quality in our area. The following suggestions are ways that you can make a contribution to clean water and a healthy environment:

- Leave grass clippings on the lawn.
- Keep fallen leaves out of the street or ditch, using them around the yard as practical. Properly place the remainder near the curb (not in the street) just before municipal collection (the public works crew tries to make a leave collection circuit through the entire Village once a week).
- Plant an extra tree for multiple environmental benefits, especially where it becomes part of a planting bed or "naturalized" landscape area that recycles leaves, twigs, and other yard wastes.
- Seed bare soil and cover it with a mulch as soon as possible to minimize erosion. Disturb no more ground than necessary for a project, while preserving existing vegetation.

continued on page 11

TENNIS PROGRAM

The Shorewood Hills Summer Tennis Program is a 7 week program offering instruction in a progressive, focused style that emphasizes fun. There are classes for all ages and skill levels.

The season kicks off with an Open House on June 12 so you can meet the staff. Classes start on June 15 and go through July 31. Registration is on a first come, first served basis. The on-line registration form is available on the Village's website (www.shorewood-hills.org). Select '**Recreation Programs**' >> '**Tennis Program**' or you can fill out the on-line registration form at the counter at the Village Hall. The registration deadline is **May 15, 2015** but classes fill up quickly, so consider registering early.

SUMMER BASKETBALL CAMP *(Registration deadline: May 15, 2015)*

The Shorewood Hills Youth Basketball Program is back in 2015! It is open to all area students entering grades 1 through 6. The program will teach the fundamentals of shooting, dribbling, passing, and defense in a six week span (June 15 - July 22).

No previous basketball experience is required! Each class meets once per week in the evening at the Shorewood Hills Elementary School's outdoor court. For more information and to register on-line check out the Village's website: www.shorewood-hills.org (go to: '**Recreation Programs**' and click on '**Summer Basketball Program**') or you can fill out the on-line form at the Village Hall. Please contact Alex Young at ajyoung90@gmail.com if you have any questions.

continued from page 10

- Direct roof downspouts away from foundations and driveways to planting beds and lawns where the water can safely soak into the ground. Use a rain barrel where practical.
- Use lawn and garden chemicals carefully and sparingly. Pesticides, including weed killers, should be considered a last resort—other controls come first.
- Limit the use of toxic or hazardous products in general. Keep them away from storm sewers, lakes, and streams.
- Collect oil and other automotive products preferably for recycling, or tightly seal and wrap them for proper disposal.
- Wash cars on the lawn, where soapy water can't quickly run toward the nearest storm sewer, picking up other pollutants as it goes.
- Keep cars tuned up and in good operating condition. Check for drips and repair leaks immediately to keep nuisance oils off pavement. Better yet, walk, bike or take the bus.
- For waterfront property, grow a "buffer strip" of dense, natural vegetation along the water's edge to filter pollutants and stabilize the shoreline.
- Monitor fuel use from any underground gas and oil tanks to make sure they are not leaking.
- Plan your landscape with environmental health in mind, reducing the area that is heavily maintained.
- Clean up pet wastes, from which nutrients and bacteria could be washed toward lakes and streams.
- Conservatively use salt in winter. Substitute sand or old-fashioned "chipping" when possible.

Excerpt from Rethinking Yard Care (DNR WT-526-99): <http://clean-water.uwex.edu/pubs/pdf/rethink.pdf>

SUMMER RECREATION PROGRAMS

The summer is almost here and time is running out to sign up for recreation programs including Tennis, Basketball and Golf. Information on these programs is listed in this Bulletin or you can check on the Village's website (www.shorewood-hills.org), see the **'Recreation Programs'** section.

Additional programs will be posted on the Village website as they become available. For information on Shorewood Hills Pool membership go to www.shorewoodpool.com.

ADULT GOLF PROGRAM

The Shorewood Hills Adult Golf Program for 2015 will be conducted at Blackhawk Country Club, in a similar fashion as last year, on two Monday mornings in the months of May, June and July. The specific dates will be May 4, May 11, June 1, June 8, July 13 and July 27.

Each participant will receive instruction in the game of golf from Matt Hartmann, the head golf pro at Blackhawk Country Club, and have an opportunity to practice what they learned by playing 9 or 18 holes of golf prior to noon on the program dates listed above. Beginners are welcome.

Group lessons will be scheduled at either 7:00 am or 8:30 am. You can choose from 1 to 6 sessions:

6 sessions = \$170.50	3 sessions = \$99.00
5 sessions = \$154.00	2 sessions = \$66.00
4 sessions = \$126.50	1 session = \$38.50

The program fee includes instruction from a PGA Pro, range balls, range ball clean up and the cost of golf after instruction (motorized cart extra). The on-line registration form is available on the Village's website (www.shorewood-hills.org). Select **'Recreation Programs'** >> **'Adult Golf Program'** or you can fill out the on-line registration form at the counter at the Village Hall. The deadline for registration is May 1.

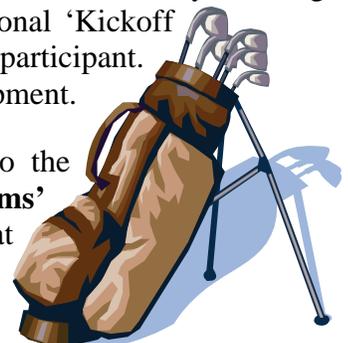

The program provides a wonderful opportunity for Village residents to learn and enjoy the game of golf in a beautiful setting. If you have any questions, please contact the Adult Golf Coordinator, Win Sager at 220-5833 or winsager@gmail.com.

JUNIOR GOLF PROGRAM

The Shorewood Hills Junior Golf Program for 2015 will be conducted at Blackhawk Country Club in combination with the Club members' Junior Golf Program again this year. The synergies resulting from combining the programs has maximized resources and saved resident juniors money.

The combined Junior Golf program will start on June 17 after school is out on Wednesday mornings (18-holers play on Tuesday afternoons at 4:00 pm). There will be an optional 'Kickoff Cookout' on Sunday afternoon, June 7. The Junior Golf fee is \$137.50 per participant. Parent/Adult walkers are required. All participants must have their own equipment.

For more information and to fill out the on-line registration form go to the Village's website (www.shorewood-hills.org). Select **'Recreation Programs'** >> **'Junior Golf Program'** or you can fill out the on-line registration form at the counter at the Village Hall. The deadline to register is **Sunday, June 7, 2015.**

WORD OF THE WOODS

GARLIC MUSTARD SEASON IS UPON US

A friendly reminder to residents that garlic mustard is a **‘Noxious Weed’** and **must be removed from all properties within the Village**. If not removed, the Village has the legal authority to have the plant removed at the property owner’s expense.

Garlic Mustard Disposal – Garlic mustard plants that are pulled **must be placed in clear plastic bags**. Dispose of the bags by:

- Placing the sealed bags in your trash cart or...
- Putting the sealed bag on top of your trash cart or...
- Depositing the sealed bags into one of the Village trash dumpsters at the Public Works Building, the Village Hall, or Pool/Community Center.

If you choose to use a herbicide, it is best to spray in April when the plants are young. Spraying plants that are already flowering is not as effective and the plant will most likely still go to seed. Spraying early also reduces the chances of killing desirable plants that have not emerged yet.

First Year Garlic Mustard Plants

Flowering Garlic Mustard Plants

EARTH DAY TURNS 45!

Earth Day celebrated its 45th anniversary on April 22nd. Here are some tips to make it Earth Day year-round!

1. Swap out your incandescent light bulbs for compact florescent light bulbs. They use less energy, last 10 times longer, produce less heat and still omit the same amount of light.
2. Plant a Tree! With Arbor Day just around the corner as well, this is the perfect time to spruce up your yard.
3. Unplug cellphone or mp3 player chargers when not in use. Chargers continue to use energy even when they are not connected to a device.
4. Donate clothing or other items that you may not use anymore. Goodwill and St. Vincent De Paul, welcome all types of donations.
5. Try doing laundry at night when energy costs are lower.
6. Start composting! The City of Madison is hosting their Annual compost bin & rain barrel sale at the Alliant Energy Center on May 9th.

Are you recycling everything you can? Interested in what happens to recyclables after they are collected? The Village’s website has Pellitteri’s expanded recycling lists for residential service and a video of Pellitteri’s state of the art recycling facility (Kipp Street Station) in action. Go to: www.shorewood-hills.org >> **‘Residential Info’** >> **‘Refuse/Recycling’** >> **‘Pellitteri Waste Systems’**

Editorial Staff: Karl Frantz, Administrator; Colleen Albrecht, Clerk; David Sykes, Web Manager.

SHOREWOOD HILLS WATER UTILITY

2014 Water Quality Report

In this report we provide information about the quality of your drinking water. The Village of Shorewood Hills purchases treated water from the City of Madison Water Utility (PWS ID 11302247). The drinking water provided by Madison has met or surpassed all Federal and State standards for health and safety (see the Water Quality Table on a subsequent page). To obtain a summary of the source water assessment or if you would like to know more about the information contained in this report, please contact Shorewood Hills Public Works Crew Chief John Mitmoen at (608) 267-2680. More information is also available on the City of Madison's website at: MadisonWater.org

WHERE DOES MY WATER COME FROM?

The Madison water system consists of 22 wells and over 840 miles of interconnected pipes. The source of the Village's water is groundwater well #14 that serves the near west side of Madison, Shorewood Hills and portions of the University of Wisconsin. We do get water from two other west side wells (#6 & #19) during higher demand times.

Quality & Reliability

WHAT IS THE SOURCE OF MY TAP WATER?

The drinking water Shorewood Hills purchases from Madison comes from a deep sandstone aquifer, an underground rock formation where water is stored in small spaces between and within rock. Groundwater in the Madison area originates as rain or snow that falls in Dane County, soaks into the ground, and is filtered through layers of soil and rock before replenishing the aquifer. Natural filtration produces high quality water for us to enjoy.

WHAT KEEPS OUR WATER SAFE?

The high quality aquifer supplying our drinking water requires little treatment. The Madison Water Utility disinfects the water with chlorine to reduce the risk of microbial contamination. A small amount of chlorine kills bacteria and viruses that can be present in groundwater. Chlorine also travels with the water and is ready to kill microbes that it might encounter in the system. Our goal is to maintain a chlorine residual above 0.1 milligrams per liter (mg/L) at all points in the distribution system. Typical concentrations range from 0.2 to 0.4 mg/L.

HOW ELSE IS THE WATER TREATED?

Fluoride is added to Madison drinking water to improve dental health and reduce tooth decay. The US Centers for Disease Control and Prevention (CDC) and Wisconsin Department of Health Services recommend maintaining an average fluoride level of 0.7 mg/L. Water from each well is tested daily to achieve this target level. In 2014, the system-wide average of 5,256 tests was 0.71 mg/L.

DO I NEED TO TAKE SPECIAL PRECAUTIONS?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as those with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Environmental Protection Agency's Safe Drinking Water Hotline at 800-426-4791.

Cryptosporidium and *Giardia*, two organisms commonly linked to water-borne illness, are found primarily in surface waters such as lakes and rivers. Because Madison's drinking water comes from a deep groundwater aquifer, these organisms do not pose a significant health risk in Madison tap water.

Do Your Part To Protect Groundwater Quality

- » Properly dispose of your household hazardous chemicals through Clean Sweep: danecountycleansweep.com
- » Use non-toxic or biodegradable cleaning products
- » Promote healthy lawns and gardens without the use of harmful chemicals, clean-water.uwex.edu/pubs
- » Limit use of winter salt on sidewalks and driveways

POTENTIAL CONTAMINANTS IN DRINKING WATER AND THEIR LIKELY SOURCES

Sources of drinking water, both tap water and bottled water, include rivers, lakes, springs, streams, ponds, reservoirs and wells. As water travels over the surface of the land and through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Types of potential contaminants and their likely sources include:

- **Microbial contaminants**, such as viruses and bacteria, may come from leaky sewer pipes, septic systems, agricultural livestock operations, and wildlife.
- **Inorganic contaminants**, including metals, minerals, nutrients, and salts, can occur naturally or they may result from urban stormwater runoff, industrial wastewater discharges, mining, or farming activities.
- **Organic contaminants**, including synthetic and volatile organic compounds, are by-products of industrial processes that can come from chemical spills, gas stations, urban stormwater runoff, and septic systems.
- **Pesticides** and herbicides may come from a variety of sources such as agriculture, urban stormwater runoff and residential use.
- **Radioactive substances** may occur naturally in rock formations and groundwater

In order to ensure that tap water is safe, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. Routine monitoring helps to ensure that drinking water concentrations of any substance remain at safe levels.

MICROBIOLOGICAL TESTING

Bacteria – To ensure drinking water safety, routine bacteriological tests are conducted. On average, the Madison Water Utility collects over 200 distribution samples each month from representative locations including two per week from Shorewood Hills. The Village collects two separate sample each month and delivers them for testing. The samples are tested for coliform bacteria, indicators of potential contamination. In 2012, none of these required samples showed the presence of coliform bacteria. These results reflect good source water quality and adequate disinfection maintained in the distribution system.

THE EPA ON CONTAMINANTS

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's (EPA) Safe Drinking Water Hotline, 800-426-4791.

How to Read the Water Quality Data Table

The EPA and Wisconsin Department of Natural Resources (WDNR) establish the safe drinking water regulations that limit the amount of contaminants allowed in drinking water. The table shows the concentrations of detected substances in comparison to the regulatory limits. Substances not detected are not included in the table.

Maximum Contaminant Level (MCL)

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available technology.

Maximum Contaminant Level Goal (MCLG)

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Action Level (AL)

The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a public water system shall follow.

Units in the Table

- One milligram per liter (mg/L) equals one part per million (ppm)
- One microgram per liter ($\mu\text{g/L}$) equals one part per billion (ppb)
- One milligram per liter equals 1,000 micrograms per liter
- One ppb is analogous to one second in 32 years
- Picocurie per liter (pCi/L) is a measure of radioactivity
- nd = non-detect

IMPORTANT NOTE ABOUT THE TABLE: The table reports the maximum and minimum concentrations for each substance found in at least one local water sample. Contaminant levels reported in the table may not be representative of the water quality at your home. Visit madisonwater.org for more information about water quality in the Village purchases from the City of Madison.

Water Quality Table (* information taken from the Madison Water Utility 2014 Water Quality Report)

Substance Detected (units)	Ideal Goal (MCLG)	Highest Level Allowed (MCL)	Medium Level Found	Range of Results	Violation (Yes/No)	Wells with Detections	Typical Source of Substance
Regulated Substances							
Arsenic (ppb)	Zero	10	0.3	nd-0.7	No	17 wells	Erosion of natural deposits. Glass and electronic production.
Barium (ppb)	2000	2000	19	8.4-57	No	All wells	Erosion of natural deposits. Discharge from metal refineries.
Chromium, Total (ppb)	100	100	0.9	nd-2.3	No	15 wells	Erosion of natural deposits. Discharge from steel and pulp mills.
1,2-Dichloroethane (ppb)	Zero	5	non-detect	nd-0.20	No	Well 17	Discharge from industrial chemical factories.
1,2-Dichloroethylene, cis (ppb)	70	70	non-detect	nd-0.42	No	Well 8 & 11	Discharge from industrial chemical factories. Biodegradation at PCE and TCE.
Fluoride (ppm)	4	4	0.8	0.7-1.0	No	All wells	Erosion of natural deposits. Added to promote strong teeth.
Nickel (ppb)	n/a	100	1.1	0.5-5.4	No	All wells	Occurs naturally in soil and water. Used in electroplating stainless steel & alloy products.
Nitrate (ppm)	10	10	0.9	nd-4.4	No	15 wells	Run off from fertilizer use. Leaching from septic tanks, sewage. Erosion of natural deposits.
Selenium (ppb)	50	50	0.5	nd-1.2	No	11 wells	Erosion of natural deposits. Petroleum and metal refineries.
Tetrachloroethylene (PCE) (ppb)	zero	5	non-detect	nd-3.5	No	6, 9, 11, 14, 15, 18, 27	Discharge from factories, dry cleaners and auto shops.
Thallium (ppb)	0.5	2	non-detect	nd-0.2	No	11, 13, 15, 17, 19, 23, 27, 28	Ore processing sites. Electronics, glass and drug factories.
1,1,1-Trichloroethane (ppb)	200	200	non-detect	nd-0.26	No	Well 18	Discharge from metal degreasing sites and other factories.
Trichloroethylene (TCE) (ppb)	zero	5	non-detect	nd-0.40	No	11, 14, 15, 18, 27	Discharge from metal degreasing sites and other factories.
Radionuclides							
Gross Alpha (pCi/L)	zero	15	3.2	nd-9.6	No	All except well 14	Erosion of natural deposits.
Gross Beta (pCi/L)	zero	50	3.1	nd-8.8	No	All except well 14	Decay of natural and man-made deposits.
Radium, 226+228 (pCi/L)	zero	5	1.7	0.5-4.5	No	All wells	Erosion of natural deposits.
Unregulated Substances							
Bromodichloromethane (ppb)	n/a	n/a	non-detect	nd-2.1	No	13 wells	By-product of drinking water chlorination
Bromoform (ppb)	n/a	n/a	non-detect	nd-0.6	No	10 wells	By-product of drinking water chlorination
Chloroform (ppb)	n/a	n/a	non-detect	nd-2.9	No	10 wells	By-product of drinking water chlorination
Chromium, Hexavalent (ppb)	n/a	n/a	0.5	nd-1.9	No	14 wells	Erosion of natural deposits. Chrome plating, leather tanning, wood preservation.
Dibromochloromethane (ppb)	n/a	n/a	0.3	nd-1.8	No	18 wells	By-product of drinking water chlorination
1,1-Dichloroethane (ppb)	n/a	n/a	non-detect	nd-0.08	No	Well 9	Discharge from industrial chemical factories.
1,4-Dioxane (ppb)	n/a	n/a	0.17	0.08-0.37	No	9, 11, 14, 15	Discharge from chemical factories. Cosmetics and detergents.
Strontium (ppb)	n/a	n/a	76	48-101	No	All wells	Erosion of natural deposits.
Trichlorofluoromethane (ppb)	n/a	n/a	non-detect	nd-0.9	No	Well 11	Discharge from industrial chemical factories. Degreaser, propellant, refrigerant.
Other Substances							
Aesthetic Goal							
Chloride (ppm)	250		22	2.4-120	No	All wells	Erosion of natural deposits. Road salt application.
Iron (ppm)	03		0.04	nd-0.56	No	15 wells	Erosion of natural deposits.
Manganese (ppb)	50		8.5	0.4-50	No	All wells	Erosion of natural deposits.
Sodium (ppm)	n/a		9.3	2.0-40	No	All wells	Erosion of natural deposits. Road salt application.
Sulfate (ppm)	250		19	7.1-40	No	All wells	Erosion of natural deposits.

Detecting Contaminants

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

Disinfection Byproducts

Contaminant (units)	Site	Ideal Goal (MCLG)	Highest Level Allowed (MCL)	Level Found	Range of Results	Sample Date (if prior to 2014)	Violation (Yes/No)	Typical Source of Substance
HAA5 (ppb)	SM1	60	60	0	0		No	By-product of drinking water chlorination
TTHM (ppb)	SM1	0	80	1.3	1.3		No	By-product of drinking water chlorination
HAA5 (ppb)	SM2	60	60	0	0		No	By-product of drinking water chlorination
TTHM (ppb)	SM2	0	80	1.5	1.3		No	By-product of drinking water chlorination

Inorganic Contaminants

Contaminant (units)	Ideal Goal (MCLG)	Highest Level Allowed (MCL)	Level Found	Range of Results	Sample Date (if prior to 2014)	Violation (Yes/No)	Typical Source of Substance
Copper (ppm)	AL=1.3	1.3	0.2900	0 of 10 above action level		No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
Lead (ppb)	AL=15	0	3.15	0 of 10 above action level		No	Corrosion of household plumbing systems; Erosion of natural deposits

Additional Health Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Shorewood Hills Water Utility is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

Information on Monitoring for Cryptosporidium and Radon

Our water system did not monitor our water for cryptosporidium or radon during 2013. We are not required by State or Federal drinking water regulations to do so.

Info You Can Use

Shorewood Hills Water Utility
810 Shorewood Boulevard
Madison, WI 53705-2115

Water Specialist: John Mitmoen
Water Specialist: Mark Moyer

LEAGUE VOLUNTEERS

The League is looking for volunteers and is especially interested in filling the post of Treasurer to help support the many wonderful activities our Community League organizes. We will still plan to host our annual 4th of July Bake Sale.

If you have any questions or are interested in supporting the tremendous contribution the League makes to our community, please contact Jela Trask at shcleague@gmail.com.

SHOREWOOD HILLS RESIDENT DIRECTORY

Update: The Shorewood Hills Community League will not be publishing the resident directory this year. In the event you did not get a chance to purchase a directory last year, please feel free to stop by the village to get a copy. We have plenty available. We will plan to publish the 2016 version next Spring.

LET'S EAT OUT FOOD CARTS

Don't forget to visit the **Lets Eat Out! Food Carts** on Wednesday evenings from 5:30 pm to 7:30 pm at the Heiden Haus (May 4 through August 26).

Bring your picnic blanket and enjoy visiting with your neighbors!

Tentative Schedule:

May 6: Masarap, Slide, Marimar, Raffy's, Cupcakes A-Go-Go

May 13: Sabor, Porktopolis, Bubbles' Doubles, Melted, Looking Glass

May 20: Haynes Kitchen, Marimar, Raffy's, Slide, Fried & Fabulous

May 27: Pots-N-Tots, Sabor, Masarap, Cupcakes A-Go-Go

We celebrate the birth of

Alexander to John Pesh & Mei Hu

We mourn the loss of

Al Dally - Viburnum Drive resident

The League would like to acknowledge births and deaths of Village residents. Please help by notifying us with such information: shcleague@gmail.com

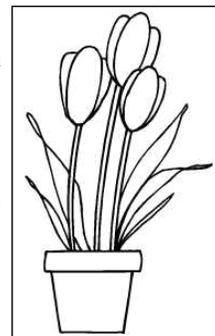

GARDEN CLUB NEWS

PLANT AND MULCH SALE

Mark your calendar for the Garden Club Plant and Mulch Sale on Saturday, May 16 from 9:00 am to noon at the Public Works building (old Fire Station).

If your garden is bountiful, we invite you to donate to the sale by potting up healthy specimens from your garden and bring them to the Public Works building on Friday afternoon (May 15). Digging and potting them a week or more before the sale is best—it gives the plant time to recover from the shock of being moved. If you want to donate some of your garden stock but need assistance with digging, please call Lynne Krainer at 238-5310).

Everyone is welcome at the Plant Sale. Come and purchase plants that you know will thrive in our Shorewood Hills soil and light conditions. And, new this year, there will be a potting bench for children, allowing them to learn how to handle a young plant and/or plant some seeds.

CLASSIFIED ADVERTISEMENTS

SERVICES

Green Acres Lawn Service – Now is the time to sign up for lawn mowing, fertilizer and weed control programs, lawn aeration, shredded bark mulch sales and spreading, gutter and downspout cleaning, sidewalk and driveway edging, bush pruning and tree work. Free estimates, fully insured. Call Rob at 831-8050 or e-mail rkuster@chorus.net.

Guitar Lessons – Located in the Village. Over 15 years teaching experience. References upon request. Sign up now for a free interview lesson. Contact Aaron Katcher at 608-661-0226 or visit <http://katcherinc.com> for more information.

Math Tutor – Quality Math Tutor for ages 8-18. Questions please contact Barb Center at (608) 217-4732 or bcentermd@gmail.com.

Capital Landscape Contractors LLC – Transform your outdoor space to become a valued extension to your home or business. We offer full landscaping services including design and installation of patios, decorative and retaining walls, and perennial, annual and full yard plantings. Free up your summer and sign up for our lawn and yard maintenance services. We have more than 20 years of expertise and pride ourselves on detailed craftsmanship and service integrity. Call 886-7003 for a quote today. Visit us at: www.capitallandscapecontractors.com.

Private Meditation & Yoga – Have you heard about the amazing benefits of meditation, mindfulness, or yoga, and want to get started, but aren't sure where to begin? Do you find group yoga classes overwhelming or not appropriate for your body? Please learn more about what I offer: www.lynnpetersonyogaandmusic.com.

FOR SALE

University Bay Dr. house for sale, directly across from UW athletic fields. A Colonial style, 2,565 sq. ft., 4 Bedroom, 2.5 Bath, attached 2+ car garage home in excellent condition. Move-In ready. Please e-mail sporter5@charter.net or Call Susan at 608-238-2277 for more information.

FOR RENT

Available Office Space – 3330 University Avenue (next to Panera). Private 290 square foot Class A office within shared suite (\$828/month). Includes common area, restrooms, Internet, cable. Optional cubicle available for assistant. Bill 608-238-3500 extension 11.

LEAGUE BULLETIN ADVERTISING POLICY

The Shorewood Hills Community League Bulletin accepts ads from Village residents and businesses. The League does not accept non-resident commercial ads. Non-residents wishing to buy or rent homes in the Village may place ads for such if they provide a Village reference. Limit ads to 150 words or less.

The Village staff manages the Bulletin advertising program for the League. If you would like to place an ad, contact **David Sykes** at: dsykes@shorewood-hills.org. Commercial ads are 50¢ per word. Other resident ads are 30¢ per word. Residents under the age of 18 may place ads at 10¢ per word. Deliver payment to the Village Hall, 810 Shorewood Blvd, Madison, WI 53705. Checks should be made out to: **Village of Shorewood Hills (or VoSH)**.

The Bulletin is published monthly. Ads are due by the 15th of each month. The League and the Village are not responsible for, nor do they endorse, the services advertised.
