

Chapter 6

EMERGENCY MEDICAL SERVICE

[Chapter 6 was deleted by Ordinance L-2014-1 on February 17, 2014]

In 2013, the City of Madison and the Village of Shorewood Hills entered into a Fire Protection and Emergency Medical Service Agreement.

Under the Agreement, the City of Madison will provide fire protection and emergency medical service to the Village of Shorewood Hills and Village residents.

The Village Board finds that adoption of fee schedules and ordinances that conform to Madison General Ordinances Chapters 34 and 40, and providing certain authority to the Fire Chief of the City of Madison and other City of Madison Fire Department personnel, will promote public safety and facilitate the provision of fire prevention services in the Village.
